Abstracts

All three of South Korea's mobile operators – KT, SK Telecom and LG Uplus – have introduced the first national wide 5G consumer service in the world, in April 2019. Impressively, more than one million people have subscribed to a 5G mobile contracts in less than three months. This rate has outpaced the country's adoption rate of 4G.

This report gives an overall view of 5G commercial in South Korea and responds the following questions:

How South Korea became the first country to launch 5G?

What is the 5G deployment pattern of the Korean operators?

What are the key drivers that led 5G a surge demand?

How 5G will reach South Korean verticals?
