## **Abstracts**

This report provides a global overview of PON technologies and their future developments, which are among the most important in the telecommunications sector today.

It begins with a retrospective of PON developments and continues by focusing on the current dominant PON technology while assessing future technologies.

Alongside a review of the broad ecosystem of PON technology providers and adopters, the report examines the different approaches taken by key stakeholders.

In addition, the report provides an assessment of expected OLT port shipments between 2020 and 2030 by region and by type of PON technology.

## Contents

### 1. EXECUTIVE SUMMARY

### 2. INTRODUCTION

Overview of fibre access technologies  
Passive Optical Network (PON) explained  
Evolution of PON technologies  
Summary of PON technological characteristics

### 3. THE MARKET OF PON

The market of PON  
Comparing some key applications of PON evolution  
Network equipment vendors positioning  
Telecom operators positioning

### 4. TECHNOLOGY ANALYSIS: WILL 25G OR 50G BE THE WINNER BEYOND 10G PON?

#### 10G PON

Adtran

#### NGPON2

Verizon – Calix

#### 25G PON

Nokia – Frontier Communications

#### 50G PON

Huawei – Telefonica

### 5. CONCLUSION

Concluding on NGPON tendencies

## List Of Tables

### LIST OF TABLES AND FIGURES

#### 2. Introduction

Overview of fibre access technologies

PON key network components

PON Architecture

Evolution of PON technologies – Key milestones up to 2021

Evolution of PON Technologies and the respective standardization bodies

Comparing the architecture and bandwidth of GPON, XGS-PON and NG-PON2

Summary of PON technological characteristics

#### 3. The market of PON

PON equipment market – Growth rate by region 2020 – 2030

OLT ports shipment from GPON to 100G PON 2020 – 2030 (% of each technology)

Comparison of some key applications of PON evolution

PON ecosystem vendors

Telecom operators positioning

Mapping the positioning of leading telecom operators

Economies of deploying the different PON technologies

Nokia's vision and timeline of PON evolution

Operators adopting Nokia's 25G PON

China Mobile choice of architecture for NGPON

#### 5. Conclusion

PON Technology evolution: 8 – 10 years for one generation

Historical 10G PON price reduce with shipments volume growth

## I would like to order

Product name: The future of (N)GPON: Will 25G or 50G be the winner beyond 10G PON?

Product link: <https://marketpublishers.com/r/F5E273BB2CE1EN.html>

Price: US\$ 3,300.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
