## Abstracts

The OSS/BSS market is thriving, driven by 5G, IoT, and digital transformation, positioning these systems as vital for telecom operators to manage networks, billing, and customer engagement. North America leads, while Asia-Pacific grows fastest due to rising mobile users.

Key vendors like Amdocs, Ericsson, NetCracker and Nokia innovate with cloud, AI, and partnerships. Challenges include legacy system integration and cybersecurity, but opportunities in cloud solutions and emerging markets offer significant potential for operators to enhance efficiency and revenue.
