## Abstracts

This report explores ultra-fast broadband rollouts carried out as part of national government-backed plans, by taking a detailed look at the situation today in seven countries: France, Germany, Italy, Portugal, Spain, Sweden and the UK.

The report consists of two parts:

Monographs of each country, which include a description of the current situation (demographics, technologies used), background on national programmes, details on the current programme (targets, regulatory measures, funding), the technologies being deployed, network governance and monitoring tools.

A synthesis that delivers:

- an analysis of the current status of national programmes in relation to the objectives set out in the Digital Agenda for Europe;

- an analysis of the progress being made in coverage rates;

- a description of the different monitoring and supervisory mechanisms in place for each national programme

## Contents

### 1. EXECUTIVE SUMMARY

### 2. METHODOLOGY & DEFINITIONS

- 2.1. General methodology of IDATE's reports
- 2.2. Background and methodology specific to this report
  - 2.2.1. Background
  - 2.2.2. Report objective
  - 2.2.3. Geographical scope
  - 2.2.4. Resources employed

### 3. FRANCE

- 3.1. Background
  - 3.1.1. A population density below the European average
  - 3.1.2. Optimal broadband coverage, but below the European average when it comes to SFB
- 3.2. Pioneer public initiatives and the national superfast broadband programme (2010 – 2013)
- 3.3. Details on the current programme: Plan France Très Haut Débit
  - 3.3.1. Regional digital development targets
  - 3.3.2. Regulatory measures
  - 3.3.3. Measures contained in the national programme
- 3.4. Technologies employed
- 3.5. Programme governance
- 3.6. Monitoring system

### 4. GERMANY

- 4.1. Background
  - 4.1.1. Higher population density than the European average
  - 4.1.2. SFB coverage above the European average
- 4.2. First programme in 2009 (Breitbandstrategie der Bundesregierung)
- 4.3. Details on the current programme (Digital Agenda 2014 – 2017)
  - 4.3.1. Regional digital development targets
  - 4.3.2. Regulatory measures
  - 4.3.3. Measures contained in the national programme

- 4.3.4. Digitale Strategie 2025
- 4.4. Technologies employed
- 4.5. Programme governance
- 4.6. Monitoring system

## **5. ITALY**

- 5.1. Background
  - 5.1.1. One of the highest population densities in Europe
  - 5.1.2. Lagging behind in SFB coverage
- 5.2. National broadband plan (2009-2011)
- 5.3. Superfast strategic plan (2013-2015)
- 5.4. Details on the current programme (Nuova strategia BUL)
  - 5.4.1. Regional digital development targets
  - 5.4.2. Regulatory measures
  - 5.4.3. Measures contained in the national programme
- 5.5. Technologies employed
- 5.6. Programme governance
- 5.7. Monitoring system

## **6. PORTUGAL**

- 6.1. Background
  - 6.1.1. Contrasting situations between densely populated coastal areas and more sparsely populated areas in the interior
  - 6.1.2. More than nine out of ten households eligible for SFB
- 6.2. The POSC (Programa Operacional da Sociedade do Conhecimento) kicked off back in 2006
- 6.3. Details on the current programme (Agenda Portugal Digital)
  - 6.3.1. Regional digital development targets
  - 6.3.2. Regulatory measures
  - 6.3.3. Measures contained in the national programme
- 6.4. Technologies employed
- 6.5. Programme governance
- 6.6. Monitoring system

## **7. SPAIN**

- 7.1. Background

- 7.1.1. Very disparate regional densities
- 7.1.2. Catching up on BB/SFB coverage and take-up, despite regional disparities
- 7.2. Description of the current programme: the Digital Agenda for Spain
  - 7.2.1. Regional digital development targets
  - 7.2.2. Regulatory measures
  - 7.2.3. Financing measures
- 7.3. Technologies employed
- 7.4. Programme governance
- 7.5. Monitoring system

## **8. SWEDEN**

- 8.1. Background
  - 8.1.1. A country of singular features
  - 8.1.2. Strong performance in both coverage and take-up
- 8.2. Details on the current programme (Broadband Strategy for Sweden)
  - 8.2.1. Regional digital development targets
  - 8.2.2. Regulatory measures
  - 8.2.3. Financing measures
- 8.3. Technologies employed
- 8.4. Programme governance
- 8.5. Monitoring system

## **9. THE UNITED KINGDOM**

- 9.1. Background
  - 9.1.1. Demographic features
  - 9.1.2. Coverage and take-up: UK one of Europe's leaders
- 9.2. Description of the current programme: Britain's Superfast Broadband Future
  - 9.2.1. Regional digital development targets
  - 9.2.2. Regulatory measures
  - 9.2.3. Financing measures
- 9.3. Technologies employed
- 9.4. Programme governance
- 9.5. Monitoring system

## **10. SYNTHESIS**

- 10.1. Objectives in sync with the Digital Agenda for Europe

## 10.2. Disparate national coverage levels

10.2.1. By and large, the national programme's start date has little impact on results

10.2.2. More or less beneficial demographics

10.2.3. FTTH: strong commitments

10.2.4. Private sector investments very influential on outcome

## 10.3. National plans: the same basic measures but different outcomes

10.3.1. Regulation: the foundation of national plans

10.3.2. Direct aid to operators to accelerate rollouts

10.3.3. Financial support: a combination of federal funding and other forms of subsidy

## Tables
