## Abstracts

This report looks at how operators are grappling with the issue of handset subsidies

After providing a reminder of the main reasons these subsidies exist, we analyse how operators – now facing growing competition and a changing value chain – have redefined the role that handsets play in their strategies.

We will see how a paradigm shift has occurred in a matter of years, and how the status quo might evolve over the long term.

## Contents

### **1. EXECUTIVE SUMMARY**

### **2. METHODOLOGY**

### **3. WHY SUBSIDISE?**

- 3.1. The device as consumption facilitator
- 3.2. Supporting network development
- 3.3. Subsidies, commitment and retention

### **4. A CHANGING ENVIRONMENT**

- 4.1. The smartphone: an increasingly heavy burden for operators
- 4.2. The rise of no-contract plans
- 4.3. Supplier emancipation + the rise of OTT = the end of walled gardens

### **5. PLAYER STRATEGIES IN A WHOLE NEW WORLD: WHAT ARE THE ALTERNATIVES?**

- 5.1. Changing subsidy strategies
  - 5.1.1. Lengthening contractual periods
  - 5.1.2. Decreasing the size of subsidies
  - 5.1.3. Resetting priorities: churn, retention and super buyers
- 5.2. Development of financing offers
  - 5.2.1. Different types of loan
  - 5.2.2. Handset leasing: the rise of 'Device as a Service'
  - 5.2.3. Offering special rates on plans rather than subsidising the handset
  - 5.2.4. Case study: the United States
- 5.3. New challenges for handset suppliers
  - 5.3.1. Impacting high-end products
  - 5.3.2. New (local) players emerging
  - 5.3.3. Revamping operator brand phones
  - 5.3.4. What impact will 5G have on subsidies?

## Tables

### TABLES

Table 1: Regulatory status of SIM card locking in a selection of European countries

Table 2: Bouygues Telecom subsidies, as of December 2015

Table 3: Christmas 2015 specials from operators in France, by order of campaign dates

## Figures

### FIGURES

Figure 1: Comparison of subsidies vs. mobile service revenue for a selection of operators

Figure 2: Evolution of the value chain

Figure 3: Adoption rates for no-contract mobile plans in France

Figure 4: China Mobile: maturing 4G handsets and a change in subsidies

Figure 5: Sprint: adapting financing to the customer's credit rating

Figure 6: Example of a leasing structure with outsourced leasing contract management

Figure 7: Cost of an iPhone 6s Plus with T-Mobile USA

Figure 8: Cost of an iPhone 6s with T-Mobile's JUMP! On Demand scheme

Figure 9: AT&T Next adoption rate and progress of handset revenue's share of total postpaid ARPU

Figure 10: Comparison of supply costs: ODM vs. OEM

Figure 11: Terminal small cells according to Chinese manufacturer Coolpad
