## Abstracts

This report sets out to answer the following questions:

Who are the key smart ageing stakeholders?

What smart ageing solutions are available today?

What was the driving force behind their development?

What costs are involved and what methods of financing can be leveraged for these solutions?

The report provides a benchmark of the technological solutions designed to promote and maintain seniors' independence and adapt their living space accordingly, as well as connected health monitoring for senior citizens (65+).

For each of these solutions we analyse:

The economic issues

Core market trends

Players' positioning along the value chain.

Also included is an estimate of the number of products and systems installed, and the savings in healthcare spending they could generate over the the next five years.

## Contents

### **1. EXECUTIVE SUMMARY**

### **2. PURPOSE & SCOPE OF THE REPORT**

- 2.1. What do you mean by Smart Ageing?
- 2.2. Why do we need to talk about Smart Ageing
- 2.3. The economics of Smart Ageing
- 2.4. Government programmes in the 10 countries being studied

### **3. KEY SMART AGEING SECTORS**

- 3.1. Maintaining independence and home adaptation
- 3.2. Connected personalised aftercare

### **4. MARKET ANALYSIS**

- 4.1 Obstacles and enablers
- 4.2 Estimated savings generated by telecare solutions
- 4.3 Estimated savings generated thanks to telemedicine solutions
- 4.4 Product number estimates (worldwide)
- 4.5 Product number estimates (regional breakdown)

### **5. ANNEX : REPORT METHODOLOGY**

## List Of Tables

### LIST OF TABLES AND FIGURES

#### 2. Purpose & scope of the report

Using technologies to help people age well: smart ageing

Countries' age dependency categories, in 2018 and 2050

Reductions in public spending enabled by smart ageing technologies

How the 10 countries being studied rank in fostering smart ageing technologies

Summary of government programmes and financing in the ten countries being examined

#### 3. Key Smart Ageing sectors

Conceptual framework of the relationship between Ehealth, telehealth, telecare and telemedicine

The different versions of telecare

Three tiers of telecare products

Use cases for which telecare products are recommended

How the different countries being studied are positioned with respect to telecare solutions

Making the transition from a voice service to another broadband service

Telecare value chain

Telecare player profiles

5 main types of robots

Causes and cures for loneliness

Snapshot of the global demand for caregivers

Robotics solutions' positioning by degree of maturity

Americans' interest in owning robots

Stimulation solution value chain Stimulation solution player profiles

Analysis of the market potential of the different senior independent living and home adaptation solutions

Range of existing telemedicine solutions

Fields of application in the area of Smart Ageing

Telemedicine solution objectives

Telemedicine solutions value chain

Telemedicine solutions player profiles

Analysis of the market potential for the different personalised, connected aftercare solutions for seniors

#### 4. Market analysis

How the countries being examined rank in terms of savings generated by telecare

products

How the countries being examined rank in terms of savings generated by telemedicine products

Worldwide number of telecare and telemedicine products in use

Regional growth of telecare and telemedicine products for seniors in use, between 2018 and 2025
