Abstracts

This report provides an overview of the consumer smart home market. It covers major technologies, players and trends and embraces qualitative and quantitative analysis.

The study describes existing offerings and the smart home value chain as well as its key players. It also identifies the major drivers and barriers of this market's development.

The report includes market estimates and forecasts for:

Eight selected countries: the USA, the UK, Germany, France, Spain, Italy, China and Japan

Five smart home segments: security, energy, lighting, entertainment and home appliances

Estimates are provided in terms of both installed base of connected objects and market revenues.

Contents
