IEMR's Morocco GPS Navigation and Location Based Services Forecast provides five-year annual forecasts for the following categories within the LBS market: Voice-Guided In-Car Navigation, Voice-Guided Pedestrian Navigation, Mobile Maps, Mobile Maps Applications (weather, restaurant guides, traffic, etc.), People Tracking, tracking and tracing (commercial applications), Location Enabled Search and Advertising, and Other LBS Applications (e.g. Proximity-based actuation, Proximity-based notification, etc.). The report is based on IEMR's Global Consumer Telecommunications Survey-- which covers 50,000 mobile users in 50 markets globally— and is the most extensive country-specific forecasts of its kind.

To this comprehensive forecast, we are adding a PowerPoint presentation and an audio conference with David Williams, Independent Contributing Analyst at IEMR, CEO of E-911 LBS Globe and formerly Product Manager, LBS Solutions at AT&T. The presentation and audio conference provide our clients with an overview of key trends in the global GPS navigation and location based services market and an overview of exciting developments in this market globally.

This report will be useful to:

- Location Based Service providers
- Strategists and analysts at vendors responsible for LBS strategy development and business analytics
- Handset and device manufacturers in all areas of the telecommunications market that need strategy recommendations on key trends in the global mobile handset industry
- Financial analysts and portfolio managers covering firms in the LBS industry or the mobile handset industry
- Consultants advising their clients on LBS markets
- Researchers who need to gain a better understanding of the global LBS market
