Global Adhesives Market Trends and Outlook

Adhesives are essential across industries for their ability to bond diverse materials efficiently, offering strength, flexibility, and durability. In construction, they ensure secure bonding of materials like wood, metal, and composites, enhancing structural integrity. The automotive sector uses adhesives to reduce vehicle weight, noise, and vibration, improving performance and fuel efficiency. In electronics, they facilitate the miniaturization of components while maintaining thermal and electrical stability. Similarly, the packaging industry relies on adhesives for secure seals and tamper-proof closures. With their versatility, cost-effectiveness, and tailored performance, adhesives are vital to modern manufacturing and product innovation.

Global consumption of adhesives is estimated at 19.4 million metric tons in 2024 and projected to post a compound annual growth rate (CAGR) of 3.8% between 2024 and 2030. In terms of value, the market is expected to reach \$77.6 billion in 2030, registering a CAGR of 4.2% over the outlook period.

The adhesives market is driven by key trends, including the shift from mechanical fasteners to adhesive solutions, rapid growth in construction and infrastructure, and advancements in the automotive sector focusing on lightweight, fuel-efficient, and electric vehicles. The expanding electronics and electrical industries, evolving packaging needs, growth in renewable energy projects, and increased demand for healthcare and medical devices further boost market growth. Innovations in adhesive formulations, compliance with environmental regulations, and the need for maintenance and repair across industries also contribute to demand. Additionally, emerging applications and markets present new opportunities, reinforcing the robust growth of the adhesives market.

Adhesives Regional Market Analysis

The global market for Adhesives has been, for the purpose of this report, categorized into five major regions, namely North America, Europe, Asia-Pacific, South America and Rest of World. These regional markets further analyzed for 24 independent countries across North America - The United States, Canada and Mexico; Europe - France, Germany, Italy, Poland, Russia, Spain, Sweden, the Netherlands and the United Kingdom; Asia-Pacific - China, India, Japan, South Korea, Taiwan and Thailand; South America - Argentina and Brazil; and Rest of World - Saudi Arabia, South Africa, Turkiye and the United Arab Emirates.

Asia-Pacific, with a volume consumption share of 53% in 2024, is the largest region for global Adhesives market and also the fastest growing region during 2024-2030 outlook period. Europe forms the second largest market for Adhesives worldwide, followed closely by North America which is expected to post below average CAGRs of under 3% over the outlook period.

Adhesives Market Analysis by Technology

Adhesives Technologies analyzed in the report include Natural-based Adhesives, Water-borne Adhesives, Hot melt Adhesives, Solvent-borne Adhesives, Reactive Adhesives, Water-soluble Adhesives and Other Adhesive Technologies.

In terms of technology, Water-borne, Hot melt and Reactive adhesives combinedly occupy 83.6% of the global Adhesives volume consumption, while Reactive adhesives lead in terms of value market for Adhesives.

Adhesives Market Analysis by Application

Adhesives applications analyzed in this report consists of Building & Construction, Consumer/DIY, Furniture/Woodworking, Industrial Assembly/Other, Leather & Footwear, Packaging/Converting and Automotive & Transportation.

Packaging/Converting is the largest application for Adhesives globally, with a volume consumption share of 34.6% estimated at 6.7 million metric tons in 2024, followed by Building & Construction.

Adhesives Market Analysis by Chemistry

Market for Adhesives by chemistry type includes Vinyl Adhesives, Acrylic Adhesives,

Polyurethane Adhesives, Elastomer/Rubber Adhesives, Epoxy Adhesives and Other Adhesive Chemistries. Adhesives based on Vinyl chemistry are the major adhesives in terms of value demand for Adhesives worldwide with a share of 26.8% valued US\$16.3 billion in 2024.

Adhesives Market Report Scope

The report reviews, analyzes and projects the global market for formulated adhesives for global and regional markets for the period 2021-2030, in terms of volume consumption in metric tons as well as value market in US\$. Natural adhesives that are not modified and Formaldehyde-type adhesives are excluded from the scope of this report.
