Abstracts

The Global dental diagnostic and surgical equipment market is anticipated to exceed US\$ 3 Billion by 2025, growing at a CAGR of over 6% between 2018 and 2025. The dental diagnostics and surgical equipment are used for the analysis and cure of dental problems such as periodontitis, gingivitis, tooth decay, dental caries, other forms of oral cancers and injury. Increasing incidence of dental diseases, rising demand for minimally invasive painless surgeries and technological advancement is expected to drive the dental diagnostics and surgical equipment market. Additionally, increasing geriatric population and growing demand for cosmetic dentistry fuels the market growth. Elder patients suffer from various dental disorders such as caries, oral candidiasis and xerostomia that thrust the dental diagnostic and surgical equipment market growth.

Dental Diagnostics & Surgical Equipment Market – Segment Analysis

Dental radiology equipment accounted for highest share of the global dental diagnostics and surgical equipment market.

With rising implementation of CAD/CAM system in Dentistry, this segment is anticipated to grow at a faster rate.

The market for lasers in dentistry has grown rapidly owing to acceptance of dental lasers by the FDA.

The market for dental hand pieces is positively influenced by factors like the rise in oral diseases, aging population, and an increase in dental clinics.

Dental Diagnostics & Surgical Equipment Market - Regional Analysis

North America accounts for the largest share of the dental diagnostics and surgical equipment market followed by the European region.

Asia-Pacific dental diagnostic & surgical equipment market is expected to grow at a faster rate during the forecasting period.

Rest of the world is showing low market share, lack of oral hygiene care is the main reason behind it.
