Abstracts

The global food safety testing market is predicted to reach US\$ 35.3 Billion by 2030. The practice of food safety testing has gained considerable significance over the past few years in view of growing incidences of food-borne illnesses and poisoning caused by contaminated food products. Food safety is threatened by microbial pathogens, viruses, toxins, genetically modified organism content, pesticides, food allergens and others. With the rising public concern over food contamination and foodborne illnesses, combined with advancements in testing technologies, the food safety testing market is anticipated to grow significantly.

The increasing consumption of processed and packaged food in developing and developed countries, owing to factors such as shifting lifestyles and food habits, rapid urbanization & fast paced life, increasing disposable incomes of consumers, rise in nuclear families and dual income households, is projected to drive the food safety testing market. Companies engaged in the manufacturing and distributions of food products are mandated by their respective regional and international regulatory agencies to implement food safety testing and certification.

Recent Developments

In March 2023, Thermo Fisher Scientific introduced the Thermo Scientific iCAP RQplus ICP-MS Analyzer, a new trace elemental analyzer that simplifies everyday analyses in environmental, food, pharmaceutical and industrial testing

laboratories.

In November 2022, SGS announced the acquisition of Bucharest-based Industry Lab, which will enhance its portfolio of testing services for the Romanian food market.

In July 2022, Neogen Corporation announced that it has acquired Thai-Neo Biotech Co., Ltd., a longstanding distributor of Neogen's food safety products located in Bangkok, Thailand.

By Contaminant: Global Food Safety Testing Market – Key Takeaways

Among the contaminants of food, testing for pathogens dominated, with Salmonella accounting for the largest share in the food safety testing market. Many food product recalls by FDA have been recently registered in the U.S. and other countries, especially due to Salmonella contamination.

Genetically Modified Organisms (GMOs) are the second leading contaminant in the food safety testing market.

Toxins and the Pesticides are the other leading contaminants in the food safety testing market.

By Pathogen: Global Food Safety Testing Market – Key Takeaways

In 2022, salmonella testing dominated the global demand for food pathogen testing owing to the large number of foodborne outbreaks due to Salmonella in foods such as meat and poultry, dairy, processed foods, and fruits and vegetables.

E-coli testing is the second leading segment of the food pathogen testing market, driven by rising awareness regarding hygiene; government regulations regarding water & food management; and increasing prevalence of water-borne diseases, such as diarrhea and Hemolytic Uremic Syndrome.

By Food Type: Global Food Safety Testing Market - Key Takeaways

Based on food type, the global food safety testing market is dominated by Meat and poultry, followed by Processed food products, as maximum number of illnesses have been associated with these applications globally. These two segments together accounted for around 60% share of the total food safety testing market in 2022.

Dairy and dairy products is the third leading application of food safety testing market being followed by fruits and vegetables.

By Region: Food Safety Testing Market - Key Takeaways

North America dominated the global food safety testing market in 2022, and this trend is projected to continue through 2030 due to an increasing number of food poisoning outbreaks in the region.

Western Europe is the second-leading regional market for food safety testing, driven by the stringent food safety regulations imposed by the European Food Safety Authority (EFSA).

Japan captured third highest share of the global food safety testing market in 2022, being followed by China.

By Method / Technology: Global Food Safety Testing Market - Key Takeaways

Immunodiagnosics accounted for largest share of the food safety testing market, driven by the advancement of testing technologies and the increase in demand for advanced and rapid technology systems.

Traditional microbiology market share is declining year on year owing to the time consuming and labor-intensive factors associated with the traditional methods.

Molecular diagnostics represent a highly effective tool in the detection and quantification of food safety threats associated with practically any nucleic acid content with intact sequences. Molecular diagnostics have the potential to revolutionize quality testing in food production.

iGATE RESEARCH report titled “Global Food Safety Testing Market (by Contaminants, Pathogens, Types of Food Tested, Technology/Method, Region), Company Profiles, Major Acquisitions and Recent Developments - Forecast to 2030” provides a comprehensive assessment of the fast-evolving, high-growth global food safety testing market.

This 216 Page report with 57 Figures and 11 Tables has been analyzed from 11 viewpoints:

1. Global - Food Safety Testing Market and Forecast (2015 - 2030)
2. Global - Food Safety Testing Market Share and Forecast (2015 - 2030)
3. Global Food Safety Testing Market and Forecast - By Contaminant (2015 - 2030)
4. Global Food Safety Testing Market and Forecast - By Pathogen (2015 - 2030)
5. Global Food Safety Testing Market and Forecast - By Food Type (2015 - 2030)
6. Food Safety Testing Market and Forecast - Regional Analysis (2015 - 2030)
7. Global Food Safety Testing Market and Forecast - By Method / Technology (2015 - 2030)
8. Global Food Safety Testing Market - Major Acquisitions (2004 - 2023)
9. Global Food Safety Testing Market - Recent Developments
10. Global Food Safety Testing Market - Key Company Profiles, Recent Developments
11. Global Food Safety Testing Market - Growth Drivers and Challenges

By Contaminants - Global Food Safety Testing Market and Forecast

1. Pathogens
2. Genetically Modified Organisms (GMOs)
3. Toxins
4. Pesticides
5. Other (Food Allergens and Chemical Residues)

By Pathogens - Global Food Safety Testing Market and Forecast

1. Salmonella
2. E-Coli
3. Listeria
4. Campylobacter
5. Others

By Food Type - Global Food Safety Testing Market and Forecast

1. Meat and Poultry
2. Dairy and Dairy Products
3. Processed Food
4. Fruits and Vegetables
5. Others (Cereals, Grains and Sauce)

By Region - Food Safety Testing Market and Forecast

1. North America
2. Central and South America
3. Western Europe
4. Eastern Europe
5. Japan
6. China
7. Rest of Asia Pacific
8. Middle East and Africa

By Method / Technology - Global Food Safety Testing Market and Forecast

1. Traditional Microbiology
2. Immunodiagnosics
3. Molecular Diagnostics
4. Analytical Chemistry

Global Food Safety Testing Market - Company Profiles

1. Agilent Technologies
2. bioMerieux SA
3. DuPont
4. 3M
5. Thermo Fisher Scientific Inc.
6. Bio-Rad
7. SGS SA
8. Eurofins Scientific
9. Intertek
10. Bureau Veritas
11. Neogen Corporation

Data Sources

iGATE RESEARCH employs rigorous primary and secondary research techniques in developing distinctive data sets and research material for business reports. This report is built by using data and information sourced from Proprietary Information Database, Primary and Secondary Research Methodologies, and In house analysis by iGATE Research dedicated team of qualified professionals with deep industry experience and expertise.

Research Methodologies

Primary Research Methodologies: Questionnaires, Surveys, Interviews with Individuals, Small Groups, Telephonic Interview, etc.

Secondary Research Methodologies: Printable and Non-printable sources, Newspaper, Magazine and Journal Content, Government and NGO Statistics, white Papers, Information on the Web, Information from Agencies Such as Industry Bodies, Companies Annual Report, Government Agencies, Libraries and Local Councils and a large number of Paid Databases.

Contents

1. EXECUTIVE SUMMARY

2. GLOBAL - FOOD SAFETY TESTING MARKET AND FORECAST (2015 - 2030)

3. GLOBAL - FOOD SAFETY TESTING MARKET SHARE AND FORECAST (2015 - 2030)

- 3.1 Global Food Safety Testing Market Share and Forecast - By Contaminant
- 3.2 Global Food Safety Testing Market Share and Forecast - By Pathogens
- 3.3 Global Food Safety Testing Market Share and Forecast - By Food Type
- 3.4 Food Safety Testing Market Share and Forecast - By Region
- 3.5 Global Food Safety Testing Market Share and Forecast - By Method / Technology

4. GLOBAL FOOD SAFETY TESTING MARKET AND FORECAST - BY CONTAMINANT (2015 - 2030)

- 4.1 Global Pathogens Testing Market and Forecast
- 4.2 Global Genetically Modified Organisms (GMOs) Testing Market and Forecast
- 4.3 Global Toxins Testing Market and Forecast
- 4.4 Global Pesticides Testing Market and Forecast
- 4.5 Global Other (Food Allergens and Chemical Residues) Testing Market and Forecast

5. GLOBAL FOOD SAFETY TESTING MARKET AND FORECAST - BY PATHOGEN (2015 - 2030)

- 5.1 Salmonella Food Testing Market and Forecast
- 5.2 E-Coli Food Testing Market and Forecast
- 5.3 Listeria Food Testing Market and Forecast
- 5.4 Campylobacter Food Testing Market and Forecast
- 5.5 Others Food Testing Market and Forecast

6. GLOBAL FOOD SAFETY TESTING MARKET AND FORECAST - BY FOOD TYPE (2015 - 2030)

- 6.1 Global - Meat and Poultry Food Safety Testing Market and Forecast
- 6.2 Global - Dairy and Dairy Products Food Safety Testing Market and Forecast
- 6.3 Global - Processed Food Safety Testing Market and Forecast

- 6.4 Global - Fruits and Vegetables Food Safety Testing Market and Forecast
- 6.5 Global Others (Cereals, Grains, and Sauce) - Food Safety Testing Market and Forecast

7. FOOD SAFETY TESTING MARKET AND FORECAST - REGIONAL ANALYSIS (2015 - 2030)

- 7.1 North America - Food Safety Testing Market and Forecast
- 7.2 Central and South America - Food Safety Testing Market and Forecast
- 7.3 Western Europe - Food Safety Testing Market and Forecast
- 7.4 Eastern Europe Food Safety Testing Market and Forecast
- 7.5 Japan - Food Safety Testing Market and Forecast
- 7.6 China - Food Safety Testing Market and Forecast
- 7.7 Rest of Asia Pacific - Food Safety Testing Market and Forecast
- 7.8 Middle East and Africa - Food Safety Testing Market and Forecast

8. GLOBAL FOOD SAFETY TESTING MARKET AND FORECAST - BY METHOD / TECHNOLOGY (2015 - 2030)

- 8.1 Traditional Microbiology Food Safety Testing Market and Forecast
- 8.2 Immunodiagnosics Food Safety Testing Market and Forecast
- 8.3 Molecular Diagnostics Food Safety Testing Market and Forecast
- 8.4 Analytical Chemistry Food Safety Testing Market and Forecast

9. GLOBAL FOOD SAFETY TESTING MARKET - RECENT DEVELOPMENTS

10. GLOBAL FOOD SAFETY TESTING MARKET - MAJOR ACQUISITIONS (2004 - 2023)

11. GLOBAL FOOD SAFETY TESTING MARKET AND FORECAST - KEY PLAYERS ANALYSIS

- 11.1 Agilent Technologies
 - 11.1.1 Business Overview
 - 11.1.2 Recent Developments
- 11.2 bioMerieux SA
 - 11.2.1 Business Overview
 - 11.2.2 Recent Developments
- 11.3 DuPont

- 11.3.1 Business Overview
- 11.3.2 Recent Developments
- 11.4 3M
 - 11.4.1 Business Overview
 - 11.4.2 Recent Developments
- 11.5 Thermo Fisher Scientific Inc.
 - 11.5.1 Business Overview
 - 11.5.2 Recent Developments
- 11.6 Bio-Rad
 - 11.6.1 Business Overview
 - 11.6.2 Recent Developments
- 11.7 SGS SA
 - 11.7.1 Business Overview
 - 11.7.2 Recent Developments
- 11.8 Eurofins Scientific
 - 11.8.1 Business Overview
 - 11.8.2 Recent Developments
- 11.9 Intertek
 - 11.9.1 Business Overview
 - 11.9.2 Recent Developments
- 11.10 Bureau Veritas
 - 11.10.1 Business Overview
 - 11.10.2 Recent Developments
- 11.11 Neogen Corporation
 - 11.11.1 Business Overview
 - 11.11.2 Recent Developments

12. GLOBAL FOOD SAFETY TESTING MARKET - GROWTH DRIVERS

- 12.1 Growing Processed Food Market Fuels Demand for Food Safety Testing
- 12.2 Food Trade Globalization
- 12.3 Rising Public Concern for Food Safety and Outbreaks of Foodborne Illnesses
- 12.4 Rise in Consumer Awareness About Food Safety
- 12.5 Huge Costs Associated with Food Recalls
- 12.6 Implementation of Stringent Food Safety Regulations
- 12.7 Availability of Advanced Technology for Testing of Food
- 12.8 Recent Food Safety Crises Fuels Market Growth for Food Safety Testing Market

13. GLOBAL FOOD SAFETY TESTING MARKET - CHALLENGES

Global Food Safety Testing Market (by Contaminants, Pathogens, Types of Food Tested, Technology/Method, Region...

- 13.1 Different Tests Required for Different Food Types
- 13.2 Dependency on Third Party Such as A Logistics Provider
- 13.3 Lack of Food Safety Awareness in Developing Countries
