Global Non-Invasive Prenatal Testing (NIPT) Market Overview

Noninvasive prenatal testing (NIPT) is an advancement in the detection of fetal chromosomal aneuploidies that analyzes cell-free fetal DNA in the blood of a pregnant woman. Since its introduction to clinical practice in 2011, NIPT has quickly spread across the globe. Hundreds of thousands of pregnant women have used these noninvasive prenatal tests since they appeared on the market in 2011. The global market for NIPT is growing rapidly; it has been projected to grow at a double digit growth rate during the period 2015 - 2020. The competition in the NIPT market landscape is fierce and the companies are aggressively looking to push their test volume.

Global - Non-Invasive Prenatal Testing (NIPT) Market Analysis: MaterniT21 PLUS is the most popular test in NIPT market but it is facing high competition from other tests and also from introduction of newer tests like informaSeq and VisibiliT prenatal tests. Harmony prenatal test and Verifi test are competing closely to grab a handsome share of the total NIPT market. Panorama test is anticipated to emerge as one of the leading test in the Global NIPT market by the year 2020.
