Abstracts

The United States In Vitro Diagnostics (IVD) market is predicted to reach nearly US\$ 37 Billion by 2026. In-vitro Diagnostics (IVD) serves a key role in the healthcare value chain by significantly influencing the quality of health outcomes, patient treatment, care and downstream resource requirements. With an aging population, technological advances and advent of point of care diagnostics, United States IVD market is slated to show substantial growth in the future. The increase in the US in vitro diagnostics market is majorly driven by high prevalence of chronic diseases, such as heart diseases, cancer, asthma, and diabetes. It is estimated that these diseases are responsible for the majority of deaths in the United States, killing more than 1.7 million US citizens annually. All of these conditions can be diagnosed and monitored using IVD products. Thus, IVDs have proved to be beneficial in managing these chronic conditions. However, some of the factors limiting the growth of the market are a lack of proper reimbursement policies and lack of skilled lab technicians.

Impact of COVID-19 on United States In-Vitro Diagnostics Market

The COVID-19 outbreak has become a global stress test. The disease has infected over 110 Million people worldwide. Globally the death toll has reached 2,432,622 according to the latest statistics from the Worldometers (as of February 17, 2021). The number is still growing, and the duration of the pandemic is still difficult to predict. The COVID-19 outbreak has created a sense of urgency and panic among people globally. While people are being advised to stay indoors, healthcare professionals and researchers have registered a state of urgency. In this scenario, the in-vitro diagnostics

forms the crux of increased testing. Manufacturers in the in-vitro diagnostic market are focusing on developing novel technologies for maximum testing within a minimum period. The novel coronavirus has accelerated the research and development activities in the in-vitro diagnostics market. Development and production in maximum numbers is the need of the hour. Therefore, quick FDA approvals are proving to be the cherry on the cake for the growth of the in-vitro diagnostic market.

United States In-Vitro Diagnostics Market - Application Segments Analysis

On segment basis, the POC - Professional segment accounted for highest share of the United States IVD market, followed by the POC - OTC diabetes segment.

Immunoassays have become one of the primary and indispensable tools in the diagnosis and monitoring of all diseases and medical conditions.

The non-infectious immunoassays contribute significantly to the United States IVD market.

It is anticipated that the molecular microbiology segment will account for around 10% share of the United States IVD market by 2026.

The Clinical chemistry segment contributed over 7% to the United States IVD market in 2020.

Histology and Hematology segments are competing closely with each other to grab maximum share of the pie.

Urinalysis captures least share of the United States in vitro diagnostics market.

United States In-Vitro Diagnostics Market - Products Analysis

Instruments is the leading product segment of the United States In-Vitro Diagnostics (IVD) market, followed by the reagents segment.

The software segment contributed nearly 15% share to the United States IVD market in 2020, due to growing preference for reliable and efficient diagnostic software.

Services segment captured least share of the United States in vitro diagnostics market, but it is likely to show impressive growth throughout the forecast period.

United States In-Vitro Diagnostics Market - Regional Analysis

The largest share of the US in vitro diagnostics market is currently in the South of the country with the West being second.

Midwest region accounts for over 22% share of the total US IVD market in 2020, as an increasing number of accredited laboratories opening in that area.

The North East region accounted for least share of the total US IVD market.

United States In-Vitro Diagnostics Market - End Users Analysis

Hospitals captures highest share of the United States IVD market, owing to the large volume of diagnostic tests carried out in hospitals.

An increasing number of independent accredited laboratories are opening all over the country, thus driving the market for laboratories segment.

The other end users (Self Testing, Retail Clinics, Physician Office Labs, Others) segment contributed nearly a quarter to the United States IVD market.

iGATE RESEARCH report titled "United States IVD Market (By Application Segment, Products, Region, End Users), Impact of COVID-19, Major Deals, Company Profiles & Recent Developments - Forecast to 2026" provides a comprehensive assessment of the fast-evolving, high-growth United States IVD Market.

This 243 Page report with 73 Figures and 8 Tables has been analyzed from 10 View Points:

- 1) United States IVD Market and Forecast (2013 - 2026)
- 2) Impact of COVID-19 on United States IVD Market
- 3) United States IVD Market Share and Forecast (2013 - 2026)
- 4) United States IVD Market & Forecast - By Application Segments (2013 - 2026)

- 5) United States IVD Market & Forecast - By Products (2013 - 2026)
- 6) United States IVD Market & Forecast - By Region (2013 - 2026)
- 7) United States IVD Market & Forecast - By End Users (2013 - 2026)
- 8) United States IVD Market & Forecast - Company Profiles (2013 - 2026)
- 9) United States IVD Market - Major Deals
- 10) United States IVD Industry Drivers & Challenges

By Application Segments - United States In-Vitro Diagnostics Market

1. Clinical Chemistry
2. Microbiology -ID/AST
3. Microbiology - Molecular
4. POC - Professional
5. POC - OTC Diabetes
6. POC - Others
7. Immunoassay - Infectious
8. Immunoassay - Others
9. Urinalysis
10. Molecular - Non-Infectious
11. Coagulation
12. Histology
13. Hematology
14. Blood Testing and Typing
15. Flow Cytometry

By Products - United States In-Vitro Diagnostics Market

Instruments

Reagents

Software

Services

By Region - United States In-Vitro Diagnostics Market

South

West

Midwest

North East

By End Users - United States In-Vitro Diagnostics Market

Hospitals

Laboratories

Others

United States In-Vitro Diagnostics Market - Company Profiles

1. Roche Diagnostic
2. Abbott Laboratories
3. Siemens Healthineers
4. Danaher Corporation
5. Thermo Fisher Scientific
6. Sysmex Corporation
7. Biomerieux
8. Bio-Rad Laboratories, Inc
9. Becton Dickinson and Company

Data Source

iGATE RESEARCH employs rigorous primary and secondary research techniques in developing distinctive data sets and research material for business reports. This report is built by using data and information sourced from Proprietary Information Database, Primary and Secondary Research Methodologies, and In house analysis by iGATE Research dedicated team of qualified professionals with deep industry experience and expertise.

Research Methodologies

Primary Research Methodologies: Questionnaires, Surveys, Interviews with Individuals, Small Groups, Telephonic Interview, etc.

Secondary Research Methodologies: Printable and Non-printable sources, Newspaper, Magazine and Journal Content, Government and NGO Statistics, white Papers, Information on the Web, Information from Agencies Such as Industry Bodies, Companies Annual Report, Government Agencies, Libraries and Local Councils and a large number of Paid Databases.

Contents

1. EXECUTIVE SUMMARY

2. IMPACT OF COVID-19 ON UNITED STATES IN-VITRO DIAGNOSTICS MARKET

3. UNITED STATES - IN-VITRO DIAGNOSTICS MARKET AND FORECAST (2013 - 2026)

4. UNITED STATES - IN-VITRO DIAGNOSTICS MARKET SHARE AND FORECAST (2013 - 2026)

4.1 By Application Segments - United States In-Vitro Diagnostics Market Share and Forecast

4.2 By Products - United States In-Vitro Diagnostics Market Share and Forecast

4.3 By Region - United States In-Vitro Diagnostics Market Share and Forecast

4.4 By End Users - United States In-Vitro Diagnostics Market Share and Forecast

5. BY APPLICATION SEGMENTS - UNITED STATES IN-VITRO DIAGNOSTICS MARKET AND FORECAST (2013 - 2026)

5.1 United States - Clinical Chemistry Market and Forecast

5.2 United States - Microbiology -ID/AST Market and Forecast

5.3 United States - Microbiology - Molecular Market and Forecast

5.4 United States - POC - Professional Market and Forecast

5.5 United States - POC - OTC Diabetes Market and Forecast

5.6 United States - POC - Others Market and Forecast

5.7 United States - Immunoassay - Infectious Market and Forecast

5.8 United States - Immunoassay - Others Market and Forecast

5.9 United States - Urinalysis Market and Forecast

5.10 United States - Molecular - Non-Infectious Market and Forecast

5.11 United States - Coagulation Market and Forecast

5.12 United States - Histology Market and Forecast

5.13 United States - Hematology Market and Forecast

5.14 United States - Blood Testing and Typing Market and Forecast

5.15 United States - Flow Cytometry Market and Forecast

6. BY PRODUCTS - UNITED STATES IN-VITRO DIAGNOSTICS MARKET AND FORECAST (2013 - 2026)

- 6.1 United States - In-Vitro Diagnostics Instruments Market and Forecast
- 6.2 United States - In-Vitro Diagnostics Reagents Market and Forecast
- 6.3 United States - In-Vitro Diagnostics Services Market and Forecast
- 6.4 United States - In-Vitro Diagnostics Software Market and Forecast

7. BY REGION - UNITED STATES IN-VITRO DIAGNOSTICS MARKET AND FORECAST (2013 - 2026)

- 7.1 South - In-Vitro Diagnostics Market and Forecast
- 7.2 West - In-Vitro Diagnostics Market and Forecast
- 7.3 Midwest - In-Vitro Diagnostics Market and Forecast
- 7.4 North East - In-Vitro Diagnostics Market and Forecast

8. BY END USER - UNITED STATES IN-VITRO DIAGNOSTICS MARKET AND FORECAST (2013 - 2026)

- 8.1 United States - Hospital In-Vitro Diagnostics Market and Forecast
- 8.2 United States - Laboratories In-Vitro Diagnostics Market and Forecast
- 8.3 United States - Others In-Vitro Diagnostics Market and Forecast

9. UNITED STATES IN-VITRO DIAGNOSTICS MARKET - COMPANY PROFILES

- 9.1 Roche Diagnostics
 - 9.1.1 Company Overview
 - 9.1.2 Recent Developments
 - 9.1.3 Sales and Forecast
- 9.2 Abbott Diagnostics
 - 9.2.1 Company Overview
 - 9.2.2 Recent Developments
 - 9.2.3 Sales and Forecast
- 9.3 Siemens Healthineers
 - 9.3.1 Company Overview
 - 9.3.2 Recent Developments
 - 9.3.3 Sales and Forecast
- 9.4 Danaher Corporation
 - 9.4.1 Company Overview
 - 9.4.2 Recent Developments
 - 9.4.3 Sales and Forecast

- 9.5 Thermo Fisher Scientific
 - 9.5.1 Company Overview
 - 9.5.2 Recent Developments
 - 9.5.3 Sales and Forecast
- 9.6 Sysmex Corporation
 - 9.6.1 Company Overview
 - 9.6.2 Recent Developments
 - 9.6.3 Sales and Forecast
- 9.7 Biomerieux
 - 9.7.1 Company Overview
 - 9.7.2 Recent Developments
 - 9.7.3 Sales and Forecast
- 9.8 Bio-Rad Laboratories, Inc
 - 9.8.1 Company Overview
 - 9.8.2 Recent Developments
 - 9.8.3 Sales and Forecast
- 9.9 Becton Dickinson and Company
 - 9.9.1 Company Overview
 - 9.9.2 Recent Developments
 - 9.9.3 Sales and Forecast

10. UNITED STATES IVD MARKET - MAJOR DEALS

- 10.1 2021
- 10.2 2020
- 10.3 2019
- 10.4 2018
- 10.5 2017
- 10.6 2016

11. UNITED STATES IN-VITRO DIAGNOSTICS MARKET - GROWTH DRIVERS

- 11.1 High Prevalence of Chronic and Infectious Diseases
- 11.2 Increase in geriatric population
- 11.3 Technology Advancement Spurring the IVD Market
- 11.4 Increasing Adoption of Automated Instruments and Automation in Laboratories Drives United States IVD Market

12. UNITED STATES IN-VITRO DIAGNOSTICS MARKET - CHALLENGES

12.1 Cumbersome Reimbursement Procedure

12.2 Shortage of Lab Technicians
