Abstracts

The global advanced authentication market size reached US\$ 16.4 Billion in 2023. Looking forward, IMARC Group expects the market to reach US\$ 45.9 Billion by 2032, exhibiting a growth rate (CAGR) of 11.8% during 2024-2032. The growing utilization of online payment gateways, rising occurrence of cyber security breaches, and increasing adoption of remote working models represent some of the key factors driving the market

Advanced authentication refers to the authentication strategy that relies on real-world identity signals adaptively to present significantly stronger identity verification. It includes software tokens, hardware tokens, and biometric systems, which are used in conjunction with traditional methods of verifying identity, such as names and passwords. It is configured through a database or an application server that emphasizes providing protection to organizations and business units from a wide range of security breaches and threats, such as hacking, identity theft, and online fraud. It grants the authorization or permission to access a particular virtual or physical space to an individual after verifying a set of specific factors. It evaluates a wide array of verification factors, which are either possession, knowledge, or inherence-based variables like fingerprint,

personal identification number (PIN), retinal scan, passwords, security questions, and one-time password (OTP). Furthermore, it enables account managers to define rules or policies to control the access of users from different domains.

Advanced Authentication Market Trends:

At present, the increasing demand for advanced authentication, as it is reliable and efficient in mitigating security risks, represents one of the crucial factors impelling the growth of the market. Besides this, the rising occurrence of cyber security breaches to steal or copy confidential information is currently propelling the growth of the market. In addition, the growing utilization of online payment gateways to make cashless payments for products and services is offering a favorable market outlook. Apart from this, the rising adoption of geofencing models based on global positioning system (GPS) technology to provide an effective tool for tracking movements in a particular area and restricting unauthorized access is contributing to the market growth. Additionally, the increasing cloud computing activities to delegate routine tasks, improve operational efficiency, and store huge amounts of crucial data is strengthening the growth of the market. Moreover, the rising adoption of remote working models to maintain proper work-life balance and flexibility while completing tasks is supporting the growth of the market. Furthermore, the increasing popularity of biometrics as an effective authentication method for offering non-repudiation, non-transferable, and non-identifiable characteristics is bolstering the growth of the market.

Key Market Segmentation:

IMARC Group provides an analysis of the key trends in each sub-segment of the global advanced authentication market report, along with forecasts at the global and regional level from 2024-2032. Our report has categorized the market based on authentication methods, deployment, solution and end-user industry.

Authentication Methods Insights:

Smart Cards

Biometrics

Mobile Smart Credentials

Tokens

User-Based Public Key Infrastructure

Other Authentication Methods

The report has provided a detailed breakup and analysis of the advanced authentication

market based on the authentication methods. This includes smart cards, biometrics, mobile smart credentials, tokens, user-based public key infrastructure, and other authentication methods. According to the report, biometrics represented the largest segment.

Deployment Insights:

On-Premise

Cloud

A detailed breakup and analysis of the advanced authentication market based on the deployment has also been provided in the report. This includes on-premise and cloud. According to the report, cloud accounted for the largest market share.

Solution Insights:

Single-Factor Authentication

Multi-Factor Authentication

A detailed breakup and analysis of the advanced authentication market based on the solution has also been provided in the report. This includes single-factor authentication and multi-factor authentication. According to the report, multi-factor authentication accounted for the largest market share.

End-User Industry Insights:

Banking and Financial Services

Healthcare

Government

Defense

IT and Telecom

Others

A detailed breakup and analysis of the advanced authentication market based on the end-user industry has also been provided in the report. This includes banking and financial services, healthcare, government, defense, IT and telecom, and others.

Regional Insights:

North America

Europe

Asia Pacific

Middle East and Africa

Latin America

The report has also provided a comprehensive analysis of all the major regional markets, which include North America, Europe, Asia Pacific, the Middle East and Africa and Latin America. According to the report, North America was the largest market for advanced authentication. Some of the factors driving the North America advanced authentication market included the growing cloud computing practices, rising occurrence of cyber security breaches, increasing adoption of advanced security measures by various industry verticals, etc.

Competitive Landscape:

The report has also provided a comprehensive analysis of the competitive landscape in the global advanced authentication market. Competitive analysis such as market structure, market share by key players, player positioning, top winning strategies, competitive dashboard, and company evaluation quadrant has been covered in the report. Also, detailed profiles of all major companies have been provided. Some of the companies covered include Fujitsu Ltd, Gemalto N. V, NEC Corporation, CA Technologies (Broadcom Inc.), Safran Identity and Security SAS, Dell Technologies Inc. (RSA Security), Lumidigm Inc (HID Global), Validissoft, Pistolstar, Securenvoy (Shearwater Group), NetMotion Wireless, CJIS Solutions, AUTHASAS, WideBand Corporation, SECUREAUTH, etc.

Key Questions Answered in This Report

1. What was the size of the global advanced authentication market in 2023?
2. What is the expected growth rate of the global advanced authentication market during 2024-2032?
3. What are the key factors driving the global advanced authentication market?
4. What has been the impact of COVID-19 on the global advanced authentication market?
5. What is the breakup of the global advanced authentication market based on the authentication methods?
6. What is the breakup of the global advanced authentication market based on the end-user industry?
7. What are the key regions in the global advanced authentication market?

8. Who are the key players/companies in the global advanced authentication market?

Contents

1 PREFACE

2 SCOPE AND METHODOLOGY

- 2.1 Objectives of the Study
- 2.2 Stakeholders
- 2.3 Data Sources
 - 2.3.1 Primary Sources
 - 2.3.2 Secondary Sources
- 2.4 Market Estimation
 - 2.4.1 Bottom-Up Approach
 - 2.4.2 Top-Down Approach
- 2.5 Forecasting Methodology

3 EXECUTIVE SUMMARY

4 INTRODUCTION

- 4.1 Overview
- 4.2 Key Industry Trends

5 GLOBAL ADVANCED AUTHENTICATION MARKET

- 5.1 Market Overview
- 5.2 Market Performance
- 5.3 Impact of COVID-19
- 5.4 Market Breakup by Authentication Methods
- 5.5 Market Breakup by Deployment
- 5.6 Market Breakup by Solution
- 5.7 Market Breakup by End-User Industry
- 5.8 Market Breakup by Region
- 5.9 Market Forecast

6 MARKET BREAKUP BY AUTHENTICATION METHODS

6.1 Smart Cards

6.1.1 Market Trends

6.1.2 Market Forecast

6.2 Biometrics

6.2.1 Market Trends

6.2.2 Market Forecast

6.3 Mobile Smart Credentials

6.3.1 Market Trends

6.3.2 Market Forecast

6.4 Tokens

6.4.1 Market Trends

6.4.2 Market Forecast

6.5 User-Based Public Key Infrastructure

6.5.1 Market Trends

6.5.2 Market Forecast

6.6 Other Authentication Methods

6.6.1 Market Trends

6.6.2 Market Forecast

7 MARKET BREAKUP BY DEPLOYMENT

7.1 On-Premise

7.1.1 Market Trends

7.1.2 Market Forecast

7.2 Cloud

7.2.1 Market Trends

7.2.2 Market Forecast

8 MARKET BREAKUP BY SOLUTION

8.1 Single Factor Authentication

8.1.1 Market Trends

8.1.2 Market Forecast

8.2 Multi-Factor Authentication

8.2.1 Market Trends

8.2.2 Market Forecast

9 MARKET BREAKUP BY END-USER INDUSTRY

9.1 Banking and Financial Services

9.1.1 Market Trends

9.1.2 Market Forecast

9.2 Healthcare

9.2.1 Market Trends

9.2.2 Market Forecast

9.3 Government

9.3.1 Market Trends

9.3.2 Market Forecast

9.4 Defense

9.4.1 Market Trends

9.4.2 Market Forecast

9.5 IT and Telecom

9.5.1 Market Trends

9.5.2 Market Forecast

9.6 Others

9.6.1 Market Trends

9.6.2 Market Forecast

10 MARKET BREAKUP BY REGION

10.1 North America

10.1.1 Market Trends

10.1.2 Market Forecast

10.2 Europe

10.2.1 Market Trends

10.2.2 Market Forecast

10.3 Asia Pacific

10.3.1 Market Trends

10.3.2 Market Forecast

10.4 Middle East and Africa

10.4.1 Market Trends

10.4.2 Market Forecast

10.5 Latin America

10.5.1 Market Trends

10.5.2 Market Forecast

11 SWOT ANALYSIS

- 11.1 Overview
- 11.2 Strengths
- 11.3 Weaknesses
- 11.4 Opportunities
- 11.5 Threats

12 VALUE CHAIN ANALYSIS

13 PORTERS FIVE FORCES ANALYSIS

- 13.1 Overview
- 13.2 Bargaining Power of Buyers
- 13.3 Bargaining Power of Suppliers
- 13.4 Degree of Competition
- 13.5 Threat of New Entrants
- 13.6 Threat of Substitutes

14 PRICE ANALYSIS

15 COMPETITIVE LANDSCAPE

- 15.1 Market Structure
- 15.2 Key Players
- 15.3 Profiles of Key Players
 - 15.3.1 Fujitsu Ltd
 - 15.3.2 Gemalto N. V
 - 15.3.3 NEC Corporation
 - 15.3.4 CA Technologies (Broadcom Inc.)
 - 15.3.5 Safran Identity and Security SAS
 - 15.3.6 Dell Technologies Inc. (RSA Security)
 - 15.3.7 Lumidigm Inc (HID Global)
 - 15.3.8 Validisoft
 - 15.3.9 Pistolstar
 - 15.3.10 Securenvoy (Shearwater Group)
 - 15.3.11 NetMotion Wireless
 - 15.3.12 CJIS Solutions
 - 15.3.13 AUTHASAS

15.3.14 WideBand Corporation

15.3.15 SECUREAUTH
