## **Abstracts**

The global automatic palletizer and depalletizer market size reached US\$ 1.10 Billion in 2023. Looking forward, IMARC Group expects the market to reach US\$ 1.60 Billion by 2032, exhibiting a growth rate (CAGR) of 4.1% during 2024-2032. The increasing preferences for online shopping, the rising demand for packaged ready-to-eat (RTE) food products, and the growing use of automatic palletizers and depalletizers in the pharmaceutical industry represent some of the key factors driving the market.

An automatic palletizer and depalletizer is used to automatically place and remove products or packages onto and from pallets. It relies on robotic arms or other automated equipment and helps improve efficiency and reduce the amount of manual labor required in handling and storing products. It assists in automating various tasks, including picking, placing, sorting, organizing, and performing quality checks of the products. It also aids in minimizing the risk of injury to employees by eliminating the need for manual handling of heavy products. Besides this, automatic palletizer and depalletizer can be customized to meet the requirements of the different industries for handling several product sizes and shapes. At present, due to the emerging trend of

automation, the demand for automatic palletizer and depalletizer is driving across the globe.

#### Automatic Palletizer and Depalletizer Market Trends:

There is an increase in the adoption of automatic palletizers and depalletizers in warehouses and distribution centers to sort and organize products according to destination, product type, and shipping methods. This, coupled with rising preferences for online shopping among the masses and significant growth in the e-commerce industry, represent one of the major factors bolstering the market growth around the world. Moreover, automatic palletizers and depalletizers are employed in the food and beverage (F&B) industry to reduce material handling time and make food processing safer and more efficient. This, along with the growing demand for packaged ready-to-eat (RTE) food products on account of hectic lifestyles and the expanding purchasing power of individuals, is influencing the market positively. In addition, the increasing utilization of automatic palletizers and depalletizers in the pharmaceutical industry to pack tablets, capsules, syringes, injections, and other drugs and reduce the risk of contamination is favoring the market growth. Apart from this, there is a rise integration of artificial intelligence (AI), machine learning (ML), sensors, and cameras in automatic palletizers and depalletizers to optimize performance. These advanced technologies also help gather data about the products and the environment to manage the movement of the robots and ensure the products are handled correctly. Furthermore, automatic palletizers and depalletizers find applications in the personal care industry for performing various tasks. This, coupled with the growing sales of personal care products, is creating a positive outlook for the market.

#### Key Market Segmentation:

IMARC Group provides an analysis of the key trends in each segment of the global automatic palletizer and depalletizer market, along with forecasts at the global, regional, and country level from 2024-2032. Our report has categorized the market based on type, products, technology, application, and end user.

#### Type Insights:

Automatic Palletizer

Automatic Depalletizer

The report has provided a detailed breakup and analysis of the automatic palletizer and depalletizer market based on the type. This includes automatic palletizer and automatic depalletizer. According to the report, automatic palletizer represented the largest

segment.

#### Products Insights:

Straight Moving

Curve Moving

A detailed breakup and analysis of the automatic palletizer and depalletizer market based on the products has also been provided in the report. This includes straight moving and curve moving. According to the report, straight moving accounted for the largest market share.

#### Technology Insights:

Conventional

Robotic

The report has provided a detailed breakup and analysis of the automatic palletizer and depalletizer market based on the technology. This includes conventional and robotic. According to the report, conventional represented the largest segment.

#### Application Insights:

Warehouse

Terminal

Supermarket

Others

A detailed breakup and analysis of the automatic palletizer and depalletizer market based on the application has also been provided in the report. This includes warehouse, terminal, supermarket, and others. According to the report, warehouse accounted for the largest market share.

#### End User Insights:

Food and Beverage Industry

Consumer Durables Industry

Pharmaceutical and Personal Care Industry

Chemicals Industry

## Others

The report has provided a detailed breakup and analysis of the automatic palletizer and depalletizer market based on the end user. This includes food and beverage industry, consumer durables industry, pharmaceutical and personal care industry, chemicals industry, and others. According to the report, food and beverage industry represented the largest segment.

## Regional Insights:

### North America

United States

Canada

### Asia-Pacific

China

Japan

India

South Korea

Australia

Indonesia

Others

### Europe

Germany

France

United Kingdom

Italy

Spain

Russia

Others

### Latin America

Brazil

Mexico

Others

### Middle East and Africa

The report has also provided a comprehensive analysis of all the major regional markets, which include North America (the United States and Canada); Asia Pacific (China, Japan, India, South Korea, Australia, Indonesia, and others); Europe (Germany, France, United Kingdom, Italy, Spain, Russia, and others); Latin America (Brazil,

Mexico, and others); and the Middle East and Africa. According to the report, North America was the largest market for automatic palletizer and depalletizer. Some of the factors driving the North America automatic palletizer and depalletizer market included the increasing number of warehouses and distribution centers, rising demand for packaged ready-to-eat (RTE) food products, integration of advanced technologies, etc.

#### Competitive Landscape:

The report has also provided a comprehensive analysis of the competitive landscape in the global automatic palletizer and depalletizer market. Competitive analysis such as market structure, market share by key players, player positioning, top winning strategies, competitive dashboard, and company evaluation quadrant has been covered in the report. Also, detailed profiles of all major companies have also been provided. Some of the companies covered include ABB Ltd., American Newlong Inc. (Newlong Machine Works Ltd. Japan.), Bastian Solutions LLC, Beumer Group GmbH & Co. KG, Clevertex Spa, Columbia Machine Inc., Ehcolo AS, Fanuc Corporation, Krones AG, Kuka AG, MSK Verpackungs-Systeme GmbH, Pester pac automation GmbH, Regal Rexnord Corporation., etc. Kindly note that this only represents a partial list of companies, and the complete list has been provided in the report.

#### Key Questions Answered in This Report:

How has the global automatic palletizer and depalletizer market performed so far, and how will it perform in the coming years?

What are the drivers, restraints, and opportunities in the global automatic palletizer and depalletizer market?

What is the impact of each driver, restraint, and opportunity on the global automatic palletizer and depalletizer market?

What are the key regional markets?

Which countries represent the most attractive automatic palletizer and depalletizer markets?

What is the breakup of the market based on the type?

Which is the most attractive type in the automatic palletizer and depalletizer market?

What is the breakup of the market based on the products?

Which is the most attractive products in the automatic palletizer and depalletizer market?

What is the breakup of the market based on the technology?

Which is the most attractive technology in the automatic palletizer and depalletizer market?

What is the breakup of the market based on the application?

Which is the most attractive application in the automatic palletizer and depalletizer

market?

What is the breakup of the market based on the end user?

Which is the most attractive end user in the automatic palletizer and depalletizer market?

What is the competitive structure of the global automatic palletizer and depalletizer market?

Who are the key players/companies in the global automatic palletizer and depalletizer market?
