Abstracts

The global automotive sunroof market size reached US\$ 9.9 Billion in 2022. Looking forward, IMARC Group expects the market to reach US\$ 15.8 Billion by 2028, exhibiting a growth rate (CAGR) of 8.10% during 2022-2028.

An automotive sunroof is a fixed window in the roof of a vehicle that allows light and fresh air to enter the passenger cabin. It assists in improving the overall aesthetics, providing ventilation, and adding value to an automobile. It can be both manually operated or motor driven and transparent or opaque. It is nowadays widely available in different shapes, sizes, and styles across the globe. Some of the commonly utilized types of automotive sunroof include pop-up, spoiler, inbuilt, folding, top-mount, panoramic, and removable.

Automotive Sunroof Market Trends:

The significant growth in the automobile industry represents one of the key factors positively influencing the market. Apart from this, a rise in the sales of passenger vehicles on account of the inflating per capita income of individuals and rising consumer expenditure on effective ventilation and brighter vehicle interiors for enhancing the overall driving experience are contributing to the growth of the market. Furthermore, leading automobile manufacturers are focusing on upgrading the design of the automotive sunroof by utilizing advanced materials. They are also adopting a wide variety of glasses, such as tempered, laminated, and glass, which can offer protection against ultraviolet (UV) rays. This, in confluence with increasing environmental concerns among individuals, has propelled key players to introduce the solar automotive sunroof, which is a cost-efficient and sustainable technology impelling the growth of the market.

Besides this, rising sales of premium and luxury vehicles are acting as another growth-inducing factor. Other major factors, including the integration of rain sensors, rising adoption of sunroofs in electric vehicles (EVs) and increasing sales of EVs, are anticipated to strengthen the growth of the market.
