## Abstracts

The global calcined anthracite market size reached US\$ 3.5 Billion in 2022. Looking forward, IMARC Group expects the market to reach US\$ 3.9 Billion by 2028, exhibiting a growth rate (CAGR) of 1.82% during 2022-2028.

Calcined anthracite is produced by annealing anthracite coal in a horizontal gas furnace at an extreme temperature. It decreases the electrical resistivity property of the material and removes residual volatile organic compounds. As a result, it is widely utilized as a recarburiser in ladle and blast furnaces for producing carbon blocks and tamping paste. It is also gaining popularity as an alternative to calcined oil coke in the production of ductile and grey irons. Nowadays, electrically calcined anthracite (ECA) with high electrical resistance is extensively utilized by several manufacturers for making uniform industrial products.

### Calcined Anthracite Market Trends:

The widespread use of steel in the construction, agriculture, and automobile industries represents one of the major factors catalyzing the demand for calcined anthracite across the globe. In addition to this, as calcined anthracite has high purity, it is widely used in battery casings as a vital filler component. The boosting sales of electric vehicles (EVs) and the thriving aviation industry are also positively influencing its adoption, which, in turn, is bolstering the market growth. Apart from this, it is utilized as a filler in the production of ramming and electrode paste, cathode blocks, carbon electrodes, and other carbon products. This, in confluence with the rising use of filtration systems in drinking water and wastewater management, is contributing to the market growth. Furthermore, as calcined anthracite releases fewer toxic gases than other forms of coals, it finds extensive applications in heating and power generation worldwide. This,

coupled with the surging demand for energy on account of rapid industrialization and the increasing dependence on electrification, is anticipated to present lucrative opportunities to market players.

#### Key Market Segmentation:

IMARC Group provides an analysis of the key trends in each sub-segment of the global calcined anthracite market report, along with forecasts at the global, regional and country level from 2023-2028. Our report has categorized the market based on technology, application and end use industry.

#### Breakup by Technology:

- Gas Calcined Anthracite
- Electrically Calcined Anthracite

#### Breakup by Application:

- Pulverized Coal Injection (PCI)
- Basic Oxygen Steelmaking
- Electric Arc Furnaces

#### Breakup by End Use Industry:

- Iron and Steel
- Aluminum
- Pulp and Paper
- Power Generation
- Water Filtration
- Others

#### Breakup by Region:

- North America
  - United States
  - Canada
- Asia-Pacific
  - China
  - Japan
  - India

South Korea  
Australia  
Indonesia  
Others  
Europe  
Germany  
France  
United Kingdom  
Italy  
Spain  
Russia  
Others  
Latin America  
Brazil  
Mexico  
Others  
Middle East and Africa

#### Competitive Landscape:

The competitive landscape of the industry has also been examined along with the profiles of the key players being Asbury Carbon, Black Diamond (Clarus Corporation), Dev Technofab Ltd., Elkem ASA (Orkla ASA), Headwin Exim Private Limited, Henan Star Metallurgy Material Co.Ltd, Jh Carbon Pty Ltd, Kingstone Group, Resorbent s.r.o., Rheinfelden Carbon Products GmbH, Sojitz JECT Corporation and Voltcon International PTE Limited.

#### Key Questions Answered in This Report

1. What was the size of the global calcined anthracite market in 2022?
2. What is the expected growth rate of the global calcined anthracite market during 2023-2028?
3. What has been the impact of COVID-19 on the global calcined anthracite market?
4. What are the key factors driving the global calcined anthracite market?
5. What is the breakup of the global calcined anthracite market based on the technology?
6. What is the breakup of the global calcined anthracite market based on the application?
7. What is the breakup of the global calcined anthracite market based on the end use industry?
8. What are the key regions in the global calcined anthracite market?

9. Who are the key players/companies in the global calcined anthracite market?
