## Abstracts

The global data catalog market size reached US\$ 770.7 Million in 2022. Looking forward, IMARC Group expects the market to reach US\$ 2,630 Million by 2028, exhibiting a growth rate (CAGR) of 21.6% during 2023-2028.

A data catalog refers to an inventory solution that is utilized by multiple businesses to store numerous data assets, including databases, web pages, and output files. It also helps businesses to search and manage large volumes of data while making it more visible to the users. It is an essential component of modern data management that is widely used by data users as a reference application. As a result, it assists users in understanding the data and searching for insightful information that is beneficial for the decision-making process. It is extensively utilized in healthcare, manufacturing, and e-commerce sectors to eliminate data silos and duplication and simplify data discovery.

### Data Catalog Market Trends:

The global market is primarily driven by significant growth in the information technology (IT) industry. Along with this, rapid digitization across numerous sectors and a considerable rise in data generation have encouraged numerous organizations to heavily invest in the deployment of data catalogs solutions, thereby providing a boost to the market growth. Moreover, continual technological advancements across the corporate segment are creating a positive outlook for the market on the global level. For instance, the widespread integration of cloud-based technologies with data catalogs to assist in creating personalized data for data analysts is positively influencing the market growth across the globe. Furthermore, the sudden outbreak of coronavirus disease (COVID-19) across the globe has encouraged numerous businesses to adapt the work-from-home (WFH) approach, which is providing an impetus to the market growth. Other factors, including continuous improvements in the manufacturing and e-commerce

sectors and increasing investments to conduct extensive research and development (R&D) activities, are also projected to drive the market further.

#### Key Market Segmentation:

IMARC Group provides an analysis of the key trends in each sub-segment of the global data catalog market report, along with forecasts at the global, regional and country level from 2023-2028. Our report has categorized the market based on component, deployment mode, organization size, data consumer and end use industry.

#### Breakup by Component:

- Solution
- Services

#### Breakup by Deployment Mode:

- On-premises
- Cloud-based

#### Breakup by Organization Size:

- Small and Medium-sized Enterprises
- Large Enterprises

#### Breakup by Data Consumer:

- Business Intelligence Tools
- Enterprise Applications
- Mobile and Web Applications

#### Breakup by End Use Industry:

- BFSI
- Retail and E-Commerce
- Manufacturing
- Government and Defense
- Energy and Utilities
- IT and Telecom
- Education
