Market Overview:

The East Africa white cement based wall putty market size reached 14,207.2 Tons in 2022. Looking forward, IMARC Group expects the market to reach 18,332.1 Tons by 2028, exhibiting a growth rate (CAGR) of 4.49% during 2023-2028.

White cement wall putty is a white cement, mineral and polymer-based putty for use on cement concrete and provides bright, smooth and superior finish on plastered walls and ceiling. It can easily be applied on the exterior or interior of the walls. The growing construction industry in the East African countries is expected to boost the demand for white cement wall putty. Moreover, it exhibits excellent water-repellent and binding properties, good tensile adhesion strength, compression and flexural strength, eco-friendly nature, durability and low maintenance costs. Due to these properties, it is increasingly being preferred by the builders and the construction companies, thereby driving the market growth in the East African countries.
