Abstracts

Market Overview:

The GCC camel dairy market size reached US\$ 702.4 Million in 2022. Looking forward, IMARC Group expects the market to reach US\$ 922.6 Million by 2028, exhibiting a growth rate (CAGR) of 4.51% during 2023-2028.

Camels play a vital role in various communities of the GCC region on account of their adaptability to the high temperatures, scarce agricultural areas and insignificant amounts of precipitation. In recent years, camel dairy farming has evolved as an alternative to traditional dairy farming in the GCC region, as the latter requires large amounts of electricity and water for the maintenance of cattle. In comparison with cow milk, camel milk is considered more nutritious in nature owing to the higher amounts of iron, copper, sodium, potassium, magnesium, manganese, and vitamin A and C. Moreover, camel milk is endowed with a high content of potent immunoglobulins which assist consumers suffering from allergies, autism, and heart and immunity disorders. Additionally, as camel milk is a natural probiotic, it promotes healthy bacterial growth in the gut, thereby aiding digestion. Moreover, the presence of lactoferrin helps in protecting the body from viral as well as bacterial infections.

Camel milk is often referred to as a complete meal since it has ample nutrients to sustain an individual throughout the day. On account of this, it was used to support nomads and herders while traveling long distances in ancient times. As opposed to the rest of the world, the GCC region has had the advantage of consuming camel milk and camel dairy products for decades. This can be accredited to the presence of a large number of camels in the region which has proliferated with the passage of time. GCC countries such as Saudi Arabia, UAE and Qatar have abundance of camels owing to

the animals' physiological peculiarities linked to their adaptation ability to harsh conditions of the desert. The dromedary camel is considered to be one of the most important livestock animals in semi-arid areas of the GCC region. This makes the raw material procurement process easier for camel milk processing companies. Other factors driving the demand of camel milk in the GCC region include increasing health awareness among the consumers, large diabetic population, increasing export market, numerous new product launches, etc.

The GCC camel dairy market has witnessed significant growth in the last few years, catalyzed by the health benefits of camel milk that are increasingly being recognized by the consumers. It has garnered attention particularly among lactose-intolerant and diabetic people as it contains a lower amount of lactose and higher amount of insulin that is imminent for regulating type 1 diabetes. Rising health awareness in the GCC region, especially in the UAE and Saudi Arabia has led to a surge in the sales of healthy food products. The urban population in these regions is continuously increasing, whereas the expanding number of Western emigrants is influencing dietary habits. These trends are expected to drive the camel dairy market in the GCC region over the coming years as camel milk and milk products are considered to be healthier than other forms of dairy products.

Key Market Segmentation:

IMARC Group provides an analysis of the key trends in each sub-segment of the GCC camel dairy market report, along with forecasts at the regional and country level from 2023-2028. Our report has categorized the market based on product type, packaging type and distribution channel.

Breakup by Product Type:

- Pasteurized Camel Milk
- Flavoured Camel Milk
- Camel Milk Powder
- Camel Milk Ice Cream
- Camel Milk Cheese
- Camel Milk Laban
- Camel Milk Ghee
- Camel Milk Drinking Yoghurt
- Camel Milk Infant Formula
- Others

On the basis of product type, the GCC camel dairy market has been segmented into flavoured milk, milk powder, pasteurized milk, ice cream, cheese, Laban, ghee, drinking yogurt, infant formula and others.

Breakup by Packaging Type:

- Bottles
- Cartons
- Cans
- Jars
- Others

Based on packaging, the report has analysed bottles, cartons, cans and jars. Bottles, currently dominate the GCC camel dairy market, accounting for the largest share.

Breakup by Distribution Channel:

- Traditional
- Modern
- Supermarkets and Hypermarkets
- Online
- Specialty Stores
- Convenience Stores
- Others

On the basis of distribution channels, the market has been divided into traditional and modern. The modern segment has been further divided into supermarkets and hypermarkets, online, specialty stores, convenience stores and others. Supermarkets and hypermarkets currently hold the largest market share.

Regional Insights:

- Saudi Arabia
- UAE
- Kuwait
- Oman
- Qatar
- Bahrain

Region-wise, the market has been segmented into Saudi Arabia, UAE, Qatar, Kuwait, Bahrain and Oman.

Competitive Landscape:

The competitive landscape and the profiles of key players operating in the GCC camel dairy market have also been provided in the report.

This report provides a deep insight into the GCC camel dairy market covering all its essential aspects. This ranges from macro overview of the market to micro details of the industry performance, recent trends, key market drivers and challenges, SWOT analysis, Porter's five forces analysis, value chain analysis, etc. This report is a must-read for entrepreneurs, investors, researchers, consultants, business strategists, and all those who have any kind of stake or are planning to foray into the GCC camel dairy in any manner

Key Questions Answered in This Report

1. What was the GCC camel dairy market size in 2022?
2. What will be the GCC camel dairy market outlook during the forecast period (2023-2028)?
3. What is the impact of COVID-19 on the GCC camel dairy market?
4. What are the GCC camel dairy market drivers?
5. What are the major trends in the GCC camel dairy market?
6. What is the GCC camel dairy market breakup by product type?
7. What is the GCC camel dairy market breakup by distribution channel?
8. What is the GCC camel dairy market breakup by packaging type?
9. What are the major regions in the GCC camel dairy market?
