Abstracts

The global IT management as a service (ITMaaS) market size reached US\$ 3.4 Billion in 2023. Looking forward, IMARC Group expects the market to reach US\$ 6.2 Billion by 2032, exhibiting a growth rate (CAGR) of 6.77% during 2024-2032. The rise of remote work culture and the need for mobile access, the rising utilization by various industries, and the growing need to streamline operations and reduce complexity represent some of the key factors driving the market.

IT Management as a service (ITMaaS) is a comprehensive solution that provides organizations with outsourced IT management and support. It offers a range of services, including cloud management, network management, cybersecurity, data analytics, and IT asset management. It involves delegating the responsibility of overseeing various aspects of IT operations to a specialized service provider. It offers businesses to effectively manage their IT infrastructure, systems, and processes without the need for in-house IT management as a service. Additionally, it offers scalability and flexibility, allowing businesses to adapt their IT resources to changing demands without significant upfront investments. It also ensures access to the latest technological advancements and best practices, leading to improved operational efficiency, enhanced security, and reduced downtime. With ITMaaS, businesses can offload the day-to-day responsibilities of IT management, such as monitoring systems, managing software updates, and ensuring data security.

IT Management as a Service (ITMaaS) Market Trends:

The rising demand by organizations to reduce operational costs is driving the global market. Moreover, the rise of remote work culture and the need for mobile access to corporate resources is catalyzing the demand for ITMaaS as it enables organizations to provide secure remote access, device management, and support to their distributed workforce. Apart from this, continual technological advancements, such as the emergence of cloud computing, artificial intelligence, and automation is catalyzing the market as organizations seek to leverage these technologies to streamline IT operations, improve efficiency, and gain a competitive edge. Besides, the proliferation of Internet of Things (IoT) devices is fuelling the market as ITMaaS providers offer solutions for managing and monitoring IoT devices, collecting and analyzing IoT data, and ensuring the security and performance of IoT infrastructures. Furthermore, ITMaaS providers offer vendor-agnostic solutions, allowing organizations to leverage multiple technology vendors without being tied to a specific vendor's ecosystem, which in turn creates a positive market outlook. In line with this, the wide utilization of ITMaaS by various sectors, such as healthcare, finance, and government, on account of their strict compliance and regulatory obligations regarding data security, privacy, and audibility is impacting the market favorably. Moreover, ITMaaS providers consolidate various IT management functions into a single solution, simplifying vendor management for organizations. This consolidation streamlines operations, reduces complexity, and improves overall efficiency, thus providing a boost to the market.

Key Market Segmentation:

IMARC Group provides an analysis of the key trends in each segment of the global IT management as a service (ITMaaS) market, along with forecasts at the global, regional, and country levels from 2024-2032. Our report has categorized the market based on application and end-user.

Application Insights:

Systems and Monitoring Management
Problem Management and Resource Utilization
Capacity Planning and Billing

The report has provided a detailed breakup and analysis of the IT management as a service (ITMaaS) market based on the application has also been provided in the report. This includes systems and monitoring management, problem management and resource utilization, and capacity planning and billing. According to the report, systems

and monitoring management exhibited a clear dominance in the market.

End User Insights:

BFSI

IT and Telecom

Healthcare

Retail and E-Commerce

Public Sector

A detailed breakup and analysis of the IT management as a service (ITMaaS) market based on the end user has also been provided in the report. This includes BFSI, IT and telecom, healthcare, retail and e-commerce, and public sector. According to the report, BFSI exhibited a clear dominance in the market.

Regional Insights:

North America

United States

Canada

Asia Pacific

China

Japan

India

South Korea

Australia

Indonesia

Others

Europe

Germany

France

United Kingdom

Italy

Spain

Russia

Others

Latin America

Brazil

Mexico

Others

Middle East and Africa

The report has also provided a comprehensive analysis of all the major regional markets, which include North America (the United States and Canada); Asia Pacific (China, Japan, India, South Korea, Australia, Indonesia, and others); Europe (Germany, France, the United Kingdom, Italy, Spain, Russia, and others); Latin America (Brazil, Mexico, and others); and the Middle East and Africa. According to the report, North America holds a leading position in the market. Some of the factors driving the North America IT management as a service (ITMaaS) market included continual technological advancements, the proliferation of IoT devices, and the rising need for cost-effectiveness.

Competitive Landscape:

The report has also provided a comprehensive analysis of the competitive landscape in the global IT management as a service (ITMaaS) market. Detailed profiles of all major companies have been provided. Some of the companies covered include Amazon.com Inc., Axelos Limited (PeopleCert), BMC Software Inc, Broadcom Inc, Frontier Technology Limited, Hewlett Packard Enterprise Development LP, High Point Solutions, OneNeck IT Solutions LLC, Optanix, ServiceNow, etc. Kindly note that this only represents a partial list of companies, and the complete list has been provided in the report.

Key Questions Answered in This Report

1. How big is the global IT Management as a Service (ITMaaS) market?
2. What is the expected growth rate of the global IT Management as a Service (ITMaaS) market during 2024-2032?
3. What are the key factors driving the global IT Management as a Service (ITMaaS) market?
4. What has been the impact of COVID-19 on the global IT Management as a Service (ITMaaS) market?
5. What is the breakup of the global IT Management as a Service (ITMaaS) market based on the application?
6. What is the breakup of the global IT Management as a Service (ITMaaS) market based on the end user?
7. What are the key regions in the global IT Management as a Service (ITMaaS) market?
8. Who are the key players/companies in the global IT Management as a Service

(ITMaaS) market?

1 PREFACE

2 SCOPE AND METHODOLOGY

- 2.1 Objectives of the Study
- 2.2 Stakeholders
- 2.3 Data Sources
 - 2.3.1 Primary Sources
 - 2.3.2 Secondary Sources
- 2.4 Market Estimation
 - 2.4.1 Bottom-Up Approach
 - 2.4.2 Top-Down Approach
- 2.5 Forecasting Methodology

3 EXECUTIVE SUMMARY

4 INTRODUCTION

- 4.1 Overview
- 4.2 Key Industry Trends

5 GLOBAL IT MANAGEMENT AS A SERVICE (ITMAAS) MARKET

- 5.1 Market Overview
- 5.2 Market Performance
- 5.3 Impact of COVID-19
- 5.4 Market Forecast

6 MARKET BREAKUP BY APPLICATION

- 6.1 Systems and Monitoring Management
 - 6.1.1 Market Trends
 - 6.1.2 Market Forecast
- 6.2 Problem Management and Resource Utilization
 - 6.2.1 Market Trends
 - 6.2.2 Market Forecast
- 6.3 Capacity Planning and Billing

6.3.1 Market Trends

6.3.2 Market Forecast

7 MARKET BREAKUP BY END USER

7.1 BFSI

7.1.1 Market Trends

7.1.2 Market Forecast

7.2 IT and Telecom

7.2.1 Market Trends

7.2.2 Market Forecast

7.3 Healthcare

7.3.1 Market Trends

7.3.2 Market Forecast

7.4 Retail and E-Commerce

7.4.1 Market Trends

7.4.2 Market Forecast

7.5 Public Sector

7.5.1 Market Trends

7.5.2 Market Forecast

8 MARKET BREAKUP BY REGION

8.1 North America

8.1.1 United States

8.1.1.1 Market Trends

8.1.1.2 Market Forecast

8.1.2 Canada

8.1.2.1 Market Trends

8.1.2.2 Market Forecast

8.2 Asia-Pacific
