Abstracts

The Mexico plastic caps and closure market size reached USD 633.7 Million in 2025 . Looking forward, IMARC Group expects the market to reach USD 1,013.5 Million by ?2034?, exhibiting a growth rate (CAGR) of 5.09% during ?2026-2034?. Growing demand for packaged foods and beverages, advancements in manufacturing technologies, increasing health consciousness among consumers, and a shift toward sustainable packaging solutions are some of the factors propelling the growth of the market.

MEXICO PLASTIC CAPS AND CLOSURE MARKET TRENDS:

Consolidation Boosting Local Manufacturing Capabilities

In Mexico, the plastic caps and closures market is seeing increased consolidation, with strategic acquisitions enhancing production capacities and supply chain integration. Injection molding facilities dedicated to serving beverage clients are becoming central to scaling operations for larger packaging players. This shift is likely to bring more advanced manufacturing technologies, higher output efficiency, and stronger domestic supply support for fast-moving consumer goods brands. It also signals a broader move toward localization of production in Mexico, helping brands reduce import reliance and improve turnaround times. The increasing presence of global manufacturers through local entities is expected to drive competitive pricing, product innovation, and improved customization to meet client-specific demands across beverages, personal care, and food packaging segments. For example, in October 2024, FEMSA, Mexico's leading

Coca-Cola bottler, sold its plastics manufacturing division to AMMI, a subsidiary of global packaging leader Alpla. The deal includes injection molding facilities that supply caps and closures to beverage companies. This move marks a major consolidation in Mexico's plastic caps and closures market, positioning AMMI to strengthen its local presence and scale operations to serve key FMCG players with advanced packaging solutions.

Expanding Dispensing Solutions in High-Growth Segments

Mexico is witnessing a rise in specialized closures catering to personal care, healthcare, and cosmetic applications. The growing need for precision dispensing systems, such as pumps and sprayers, is reshaping product portfolios and driving localized expansion of manufacturing and supply infrastructure. As consumer demand for hygienic, convenient, and aesthetically appealing packaging increases, more producers are focusing on high-quality dispensing closures that align with regulatory and brand-specific requirements. This shift supports better market coverage, faster delivery cycles, and stronger relationships with regional clients. Companies with global expertise are deepening their presence by enhancing technical capabilities within Mexico, creating a more responsive ecosystem for sectors that require performance-focused and customized plastic closure solutions across health, beauty, and wellness product categories. For instance, in August 2024, Silgan Holdings' recent acquisition of Alb?a's dispensing business enhanced its footprint in the global closures market, including Mexico. The move strengthens Silgan's offering in pumps, sprayers, and dispensing closures used in personal care and healthcare. With this deal, Silgan is expected to expand its supply capabilities in Mexico's growing plastic caps and closures market, driven by demand from cosmetics, pharmaceuticals, and consumer packaging segments.

MEXICO PLASTIC CAPS AND CLOSURE MARKET SEGMENTATION:

IMARC Group provides an analysis of the key trends in each segment of the market, along with forecasts at the region/country level for 2026-2034. Our report has categorized the market based on product type, raw materials, container type, technology, and end use.

Product Type Insights:

Screw-On Caps

Dispensing Caps

Others

The report has provided a detailed breakup and analysis of the market based on the product type. This includes screw-on caps, dispensing caps, and others.

Raw Materials Insights:

PET

PP

HDPE

LDPE

Others

A detailed breakup and analysis of the market based on the raw materials have also been provided in the report. This includes PET, PP, HDPE, LDPE, and others.

Container Type Insights:

Plastic

Glass

Others

The report has provided a detailed breakup and analysis of the market based on the container type. This includes plastic, glass, and others.

Technology Insights:

Injection Molding

Compression Molding

Post-Mold Tamper-Evident Band

A detailed breakup and analysis of the market based on the technology have also been provided in the report. This includes injection molding, compression molding, and post-mold tamper-evident band.

End Use Insights:

Beverages

Industrial Chemicals

Food

Cosmetics

Household Chemicals

Pharmaceuticals

Others

A detailed breakup and analysis of the market based on the end use have also been provided in the report. This includes beverages, industrial chemicals, food, cosmetics, household chemicals, pharmaceuticals, and others.

Regional Insights:

Northern Mexico

Central Mexico

Southern Mexico

Others

The report has also provided a comprehensive analysis of all the major regional markets, which include Northern Mexico, Central Mexico, Southern Mexico, and others.

COMPETITIVE LANDSCAPE:

The market research report has also provided a comprehensive analysis of the competitive landscape. Competitive analysis such as market structure, key player positioning, top winning strategies, competitive dashboard, and company evaluation quadrant has been covered in the report. Also, detailed profiles of all major companies have been provided.

KEY QUESTIONS ANSWERED IN THIS REPORT

How has the Mexico plastic caps and closure market performed so far and how will it perform in the coming years?

What is the breakup of the Mexico plastic caps and closure market on the basis of product type?

What is the breakup of the Mexico plastic caps and closure market on the basis of raw materials?

What is the breakup of the Mexico plastic caps and closure market on the basis of container type?

What is the breakup of the Mexico plastic caps and closure market on the basis of technology?

What is the breakup of the Mexico plastic caps and closure market on the basis of end use?

What is the breakup of the Mexico plastic caps and closure market on the basis of region?

What are the various stages in the value chain of the Mexico plastic caps and closure market?

What are the key driving factors and challenges in the Mexico plastic caps and closure market?

What is the structure of the Mexico plastic caps and closure market and who are the key players?
