Abstracts

The North America corrugated boxes market size reached 47.2 Billion Sq. Meters in 2022. Looking forward, IMARC Group expects the market to reach 50.4 Billion Sq. Meters by 2028, exhibiting a growth rate (CAGR) of 1.08% during 2023-2028.

Corrugated box refers to a primary means of packaging used for transporting various objects. It is usually composed of paperboard, which is made primarily of cellulose fibers obtained from wood. These boxes provide high strength, rigidity, flexibility, high durability, light-weightiness and aesthetic value. Also, they are eco-friendly as no harmful chemicals are used during the manufacturing process and are recyclable. Corrugated boxes are used in the packaging of products across various industry sectors such as food and beverage, cosmetics, pharmaceutical products, personal care and household goods, electrical goods, glassware and ceramics, textile, etc.

North America represents one of leading markets for corrugated boxes pertaining to the increasing preference for innovative and lightweight packaging materials across diverse sectors in the region. Rising demand for premium goods from the e-commerce industry has fueled the demand for corrugated boxes. Escalating focus on retail-ready and sustainable packaging will continue to spur the demand in the upcoming years.

Key Market Segmentation:

IMARC Group provides an analysis of the key trends in each sub-segment of the North America corrugated boxes market report, along with forecasts at the regional and country level from 2023-2028. Our report has categorized the market based on material used, end-use, type, wall construction and printing technology.

Key Regions Analysed

Key Questions Answered in This Report

1. What was the size of the North America corrugated boxes market in 2022?
2. What is the expected growth rate of the North America corrugated boxes market during 2023-2028?
3. What are the key factors driving the North America corrugated boxes market?
4. What has been the impact of COVID-19 on the North America corrugated boxes market?
5. What is the breakup of the North America corrugated boxes market based on the material used?
6. What is the breakup of the North America corrugated boxes market based on the end-use?
7. What is the breakup of the North America corrugated boxes market based on the type?
8. What is the breakup of the North America corrugated boxes market based on the wall construction?
9. What is the breakup of the North America corrugated boxes market based on the printing technology?
10. What are the key regions in the North America corrugated boxes market?
