## Abstracts

### Market Overview:

The global online movie ticketing services market size reached US\$ 19.1 Billion in 2022. Looking forward, IMARC Group expects the market to reach US\$ 27.5 Billion by 2028, exhibiting a growth rate (CAGR) of 6.4% during 2023-2028.

Online movie ticketing service refers to the process of reserving seats and tickets for various entertainment activities, such as movies, through an online portal. This involves a third-party website or software application, which enables the consumer to reserve their desired seats in the theatre of their choice. The bookings can be made through smartphones, laptops, tablets and computers while the payment can be made online or paid later at the counter. Apart from this, it also offers numerous other benefits, such as the availability of a wide variety of movies and theaters to choose from, along with time- and cost-effectiveness.

Rapid urbanization and the increasing utilization of smart devices and personal computers across the globe, are among the key factors driving the growth of the market. In recent years, there has been a shift in consumer preferences from conventionally available counter services to mobile- and web-based applications for booking movie tickets. Furthermore, online movie ticketing services serve as a more convenient, hassle-free and quicker alternative to the other conventional processes. Service vendors are emphasizing on improving the overall consumer experience by offering attractive promotions and discounts to the consumers. Additionally, the growing penetration of broadband services and improving internet connectivity are creating a positive impact on the market growth. Other factors, including rising expenditure capacities of the

consumers and the introduction of theatres with luxurious seats and high-definition screens, are projected to drive the market in the upcoming years.
