Abstracts

The global paint rollers market size reached US\$ 3.1 Billion in 2022. Looking forward, IMARC Group expects the market to reach US\$ 4.2 Billion by 2028, exhibiting a growth rate (CAGR) of 5.2% during 2022-2028.

A paint roller is a painting tool used for applying smooth coats of paint on walls and other surfaces. Some of the commonly used variants include texture, acrylic, mini paint, sponge, ragging and plastic paint rollers. They consist of a cylindrical roller frame covered with absorbent material, which is mounted on a handle to dip the roller in the paint. The roller cover is usually cleaned and reused with different paints or disposed of after use. In comparison to the traditionally used paint brushes, paint rollers are more cost-effective as the porous surface holds more paint and effectively distributes an even layer of paint on the surface.

Paint Rollers Market Trends:

Significant growth in the construction industry across the globe is one of the key factors creating a positive outlook for the market. With the rising expenditure capacities, consumers are increasingly spending on the beautification and renovation of their residential and commercial spaces with modern and aesthetically appealing designs. Paint rollers are widely used for applying uniform and smooth designs and textures on walls, ceilings and large furniture. Additionally, various product innovations, such as the development of cost-effective, lightweight, environment friendly and high-quality variants with swift-paint application features, are acting as other growth-inducing factors. These novel variants are also extensively used for live graffiti paintings and spill- and drip-proof paintings on false ceilings and facades. Other factors, including extensive infrastructural development, especially in the developing economies, along with rapid urbanization, are anticipated to drive the market toward growth.

Key Market Segmentation:

IMARC Group provides an analysis of the key trends in each sub-segment of the global

paint rollers market report, along with forecasts at the global, regional and country level from 2023-2028. Our report has categorized the market based on fabric, frame size and end user.

Breakup by Fabric:

Synthetic

Blended

Breakup by Frame Size:

Short

Medium

Large

Breakup by End User:

Residential

Commercial

Industrial

Breakup by Region:

North America

United States

Canada

Asia-Pacific

China

Japan

India

South Korea

Australia

Indonesia

Others

Europe

Germany

France

United Kingdom

Italy

Spain

Russia

Others

Latin America

Brazil

Mexico

Others

Middle East and Africa

Competitive Landscape:

The competitive landscape of the industry has also been examined along with the profiles of the key players being Anderson Products, Beorol, Gordon Brush Mfg. Co. Inc, Hyde Tools Inc., Linzer Products Corp., Marshall Brushes & Rollers Ltd, Premier Paint Roller Company LLC, Purdy, Stanley Black & Decker Inc. and The Wooster Brush Company.

Key Questions Answered in This Report

1. How big is the global paint rollers market?
2. What is the expected growth rate of the global paint rollers market during 2023-2028?
3. What are the key factors driving the global paint rollers market?
4. What has been the impact of COVID-19 on the global paint rollers market?
5. What is the breakup of the global paint rollers market based on the fabric?
6. What is the breakup of the global paint rollers market based on the frame size?
7. What is the breakup of the global paint rollers market based on the end user?
8. What are the key regions in the global paint rollers market?
9. Who are the key players/companies in the global paint rollers market?
