Abstracts

The global pool tables market size reached US\$ 215.6 Million in 2022. Looking forward, IMARC Group expects the market to reach US\$ 299.2 Million by 2028, exhibiting a growth rate (CAGR) of 5.61% during 2022-2028.

Pool represents one of the popular cue sports wherein a stick, known as a cue, is used to strike colored balls on a pool table. It differs from other games on account of the size of the balls and cue stick, height of the rails, and the pocket shades of balls used, which include yellow, green, brown, blue, pink, and blue. Its table, which is generally made using quarried slate, provides a flat surface and it is covered with cloth of tightly-woven worsted wool called baize and surrounded via vulcanized rubber cushions. At present, leading manufacturers are engaged in introducing pool tables with a 2:1 ratio in numerous sizes to suit the preferences of different end users.

Pool Tables Market Trends:

The growing popularity of cue sports and other recreational activities represents one of the key factors facilitating the growth of the market. Moreover, the improving pool facilities on account of the increasing number of official academics is positively

influencing the demand for pool tables across the globe. In line with this, various governing authorities and private associations are promoting pool and supporting through coaching programs, which is impelling the market growth. Additionally, due to the rising trend of customization, leading market players are designing and offering customized pool tables to expand their customer base and increase their overall sales. They are also adopting online retail strategies to minimize production costs, increase their margins and get customer feedback regularly. However, the outbreak of coronavirus disease (COVID-19) and the implementation of stringent lockdown policy by governing authorities of several countries negatively impacted the market. It is gradually experiencing growth again as lockdown restrictions are getting uplifted worldwide.
