Abstracts

The global power tool accessories market size reached US\$ 2.0 Billion in 2022. Looking forward, IMARC Group expects the market to reach US\$ 2.7 Billion by 2028, exhibiting a growth rate (CAGR) of 5.2% during 2023-2028.

Power tools accessories refer to the additional fittings that are used in various engine-driven power, electric and pneumatic power devices. Drills, screwdrivers, and router bits, abrasives wheels, saw blades, chippers and threading products are some of the commonly used power tool accessories. These accessories are ergonomically designed to enhance the efficiency, convenience of use, battery performance and connectivity of the power tools. They also aid in simplifying repetitive tasks and minimizing the chances of human errors and injuries. Owing to this, they find extensive applications across various sectors, including electronics, construction, logistics, manufacturing and aerospace.

Rapid industrialization, along with the emerging trend of automation across the globe, is one of the key factors driving the growth. Furthermore, expansion in the construction and automotive industries is also providing a boost to the market growth. In line with this, there is a growing demand for fabricated metals, such as stamped metal products, fasteners and springs, which are manufactured using power tools, thereby increasing the utilization of power tool accessories. The widespread adoption of cordless power tools equipped with high-density Lithium-ion (Li-ion) batteries is also creating a positive impact on the market growth. In comparison to the traditionally used devices, cordless power tools, such as hammer drills, impact wrenches and circular saws, are more compact, mobile, multi-purpose and have a longer operational life. Other factors, including rapid urbanization, along with the development of smart technologies and low-

cost and energy-efficient power tools, are projected to drive the market further.

Key Market Segmentation:

IMARC Group provides an analysis of the key trends in each sub-segment of the global power tool accessories market report, along with forecasts at the global, regional and country level from 2023-2028. Our report has categorized the market based on type, application and end-use sector.

Breakup by Type:

- Drill Bits
- Screwdriver Bits
- Router Bits
- Circular Saw Blades
- Jig Saw Blades
- Band Saw Blades
- Abrasive Wheels
- Reciprocating Saw Blades
- Others

Breakup by Application:

- Militer Saw
- Drill Machine
- Reciprocating Saw
- Hole Saw
- Others

Breakup by End-Use Sector:

- Industrial
- Automotive
- Construction
- Aerospace and Defense
- Energy
- Marine
- Others
- Residential

Breakup by Region:

Competitive Landscape:

The report has also analysed the competitive landscape of the market with some of the key players being Apex Tool Group LLC (Bain Capital Partners), Atlas Copco AB, Hilti Aktiengesellschaft, Husqvarna Group, Ingersoll-Rand Plc (Gardner Denver Holdings Inc.), Klein Tools Inc., Koki Holdings Co. Ltd. (KKR & Co. Inc.), Makita Corporation, Robert Bosch GmbH, Snap-On Incorporated, Stanley Black & Decker Inc., Techtronic Industries Company Limited, etc.

Key Questions Answered in This Report

1. What was the size of the global power tool accessories market in 2022?
2. What is the expected growth rate of the global power tool accessories market during 2023-2028?

3. What are the key factors driving the global power tool accessories market?
4. What has been the impact of COVID-19 on the global power tool accessories market?
5. What is the breakup of the global power tool accessories market based on the type?
6. What is the breakup of the global power tool accessories market based on the application?
7. What is the breakup of the global power tool accessories market based on the end-use sector?
8. What are the key regions in the global power tool accessories market?
9. Who are the key players/companies in the global power tool accessories market?
