Abstracts

Market Overview:

The Qatar cement market size reached US\$ 940.8 Million in 2022. Looking forward, IMARC Group expects the market to reach US\$ 1,269.10 Million by 2028, exhibiting a growth rate (CAGR) of 5.20% during 2023-2028. The escalating demand for fast-drying cement, growing investments by governing agencies in the construction sector, and increasing development of hotels, resorts, and cafes due to the rising number of tourists represent some of the key factors driving the market.

Cement is a fine powder produced by heating a mixture of limestone, clay, and other minerals at high temperatures. It forms a paste when mixed with water, which hardens and binds aggregates like sand and gravel and creates a solid mass known as concrete. It can be molded into different shapes and sizes to offer flexibility in design and architectural creativity. It acts as a binding agent that holds the aggregates together and forms a solid and load-bearing structure. It is resistant to numerous environmental factors and contributes to energy efficiency and sustainability. It can withstand extreme temperatures and assists in reducing the risk of structural damage. It provides structural strength and stability to buildings, bridges, roads, dams, and other infrastructure projects. As it has a long lifespan and reduces the need for frequent replacements while minimizing waste, the demand for cement is rising in Qatar.

Qatar Cement Market Trends:

Governing authorities in Qatar have been investing in infrastructure development and various construction projects to facilitate economic diversification and host major events like FIFA World Cup 2022. They have also introduced the Qatar National Vision 2030,

which focuses on human, social, economic and environmental development. This, along with various initiatives to encourage foreign direct investment (FDI), represents one of the key factors propelling the growth of the market in Qatar. Besides this, they are also establishing economic free zones to offer seamless entry into local and regional markets to traders. Moreover, numerous benefits offered by cement, such as ease of handling and impact resistance, moisture resistance, and fire resistance properties, are strengthening the growth of the market in the country. Apart from this, there is an increase in the construction of residential buildings due to the growing population in Qatar. This, coupled with the rising emergence of green cement for the construction of sustainable and eco-friendly buildings, is offering lucrative growth opportunities to industry investors. Furthermore, the growing development of hotels, resorts, and cafes on account of the increasing number of tourists in Qatar is positively influencing the market. Additionally, the escalating demand for fast-drying cement is bolstering the growth of the market in the country.

Key Market Segmentation:

IMARC Group provides an analysis of the key trends in each segment of the Qatar cement market, along with forecasts at the country levels from 2023-2028. Our report has categorized the market based on type and end use.

Type Insights:

- Portland
- White Portland
- Others

The report has provided a detailed breakup and analysis of the Qatar cement market based on the type. This includes Portland, white Portland, and others.

End Use Insights:

- Residential
- Infrastructure
- Commercial

A detailed breakup and analysis of the Qatar cement market based on the end use has also been provided in the report. This includes residential, infrastructure, and commercial. According to the report, commercial accounted for the largest market share.

Competitive Landscape:

The report has also provided a comprehensive analysis of the competitive landscape in the Qatar cement market. Detailed profiles of all major companies have been provided.

Key Questions Answered in This Report:

How has the Qatar cement market performed so far, and how will it perform in the coming years?

What are the drivers, restraints, and opportunities in the Qatar cement market?

What is the impact of each driver, restraint, and opportunity on the Qatar cement market?

What is the breakup of the market based on the type?

Which is the most attractive type in the Qatar cement market?

What is the breakup of the market based on the end use?

Which is the most attractive end use in the Qatar cement market?

What is the competitive structure of the Qatar cement market?

Who are the key players/companies in the Qatar cement market?

1 PREFACE

2 SCOPE AND METHODOLOGY

2.1 Objectives of the Study

2.2 Stakeholders

2.3 Data Sources

2.3.1 Primary Sources

2.3.2 Secondary Sources

2.4 Market Estimation

2.4.1 Bottom-Up Approach

2.4.2 Top-Down Approach

2.5 Forecasting Methodology

3 EXECUTIVE SUMMARY

4 INTRODUCTION

4.1 Overview

4.2 Key Industry Trends

5 QATAR CEMENT MARKET

5.1 Market Overview

5.2 Market Performance

5.3 Impact of COVID-19

5.4 Market Forecast

6 MARKET BREAKUP BY TYPE

6.1 Portland

6.1.1 Market Trends

6.1.2 Market Forecast

6.2 White Portland

6.2.1 Market Trends

6.2.2 Market Forecast

6.3 Others

6.3.1 Market Trends

6.3.2 Market Forecast

7 MARKET BREAKUP BY END USE

7.1 Residential

7.1.1 Market Trends

7.1.2 Market Forecast

7.2 Infrastructure

7.2.1 Market Trends

7.2.2 Market Forecast

7.3 Commercial

7.3.1 Market Trends

7.3.2 Market Forecast

8 SWOT ANALYSIS

8.1 Overview

8.2 Strengths

8.3 Weaknesses

8.4 Opportunities

8.5 Threats

9 VALUE CHAIN ANALYSIS

10 PORTERS FIVE FORCES ANALYSIS

10.1 Overview

10.2 Bargaining Power of Buyers

10.3 Bargaining Power of Suppliers

10.4 Degree of Competition

10.5 Threat of New Entrants

10.6 Threat of Substitutes

11 COMPETITIVE LANDSCAPE

11.1 Market Structure

11.2 Key Players

11.3 Profiles of Key Players
