## **Abstracts**

The global sewing machine market size reached US\$ 6.4 Billion in 2022. Looking forward, IMARC Group expects the market to reach US\$ 8.8 Billion by 2028, exhibiting a growth rate (CAGR) of 5.45% during 2022-2028.

A sewing machine is used for stitching fabrics and other pliable materials together with threads. It mainly includes spool pin, handwheel, power stitch, bobbin winder thread guide, needle clamp screw, presser's foot, bobbin cover and release button, feed dog, needle, and needle plate. It is also equipped with safety devices like needle guards that aid in preventing accidental needle-stick injuries. As it assists in fixing torn, unused, and outgrown clothes that are widely available in a range of sizes, costs, appearances, and tasks, sewing machines are gaining immense popularity among individuals across the globe.

### **Sewing Machine Market Trends:**

A significant increase in the adoption of sewing machines in the automobile industry around the world represents one of the key factors strengthening the growth of the market. Sewing machines are extensively employed to manufacture automotive carpets, nylon tire cords, and seatbelts webbings. This, along with the boosting sales of electric vehicles (EVs) on account of increasing environmental concerns and the escalating demand for fuel-efficient, high-performance, and low-emission automobiles, is contributing to market growth. Besides this, high-end sewing machines are gaining preference among industrial manufacturers due to their improved features that save time, energy and reduce the complexity of the production process. The market is also impelled by the rising utilization of these machines in the domestic sector for making creative embroideries on clothes and canvas as well as to stitch basic household

clothes worldwide. Furthermore, leading market players are incorporating intelligent technology in the manufacturing of sewing machines, such as the Internet of Things (IoT) and big data, to enhance the efficiency of production lines, which is projected to create a favorable market outlook.

#### Key Market Segmentation:

IMARC Group provides an analysis of the key trends in each sub-segment of the global sewing machine market report, along with forecasts at the global, regional and country level from 2023-2028. Our report has categorized the market based on product type, application and distribution channel.

#### Breakup by Product Type:

- Mechanical
- Electronics
- Embroidery

#### Breakup by Application:

- Domestic
- Industrial

#### Breakup by Distribution Channel:

- Online
- Offline

#### Breakup by Region:

- North America
  - United States
  - Canada
- Asia-Pacific
  - China
  - Japan
  - India
  - South Korea
- Australia
- Indonesia

Others

Europe

Germany

France

United Kingdom

Italy

Spain

Russia

Others

Latin America

Brazil

Mexico

Others

Middle East and Africa

#### Competitive Landscape:

The competitive landscape of the industry has also been examined along with the profiles of the key players being Aisin Corporation, Bernina International AG, Brother Industries Ltd, Elna International Corp. SA (Janome), Jack Sewing Machine Co. Ltd, JUKI Corporation, Kaulin Manufacturing Co. Ltd., Mitsubishi Electric Corporation, PFAFF Industriesysteme und Maschinen GmbH (Shang Gong Group Co. Ltd.), Rimoldi & CF Srl, Seiko Sewing Machine Co. Ltd and Usha International Limited.

#### Key Questions Answered in This Report

1. How big is the global sewing machine market?
2. What is the expected growth rate of the global sewing machine market during 2023-2028?
3. What are the key factors driving the global sewing machine market?
4. What has been the impact of COVID-19 on the global sewing machine market?
5. What is the breakup of the global sewing machine market based on the product type?
6. What is the breakup of the global sewing machine market based on the application?
7. What is the breakup of the global sewing machine market based on the distribution channel?
8. What are the key regions in the global sewing machine market?
9. Who are the key players/companies in the global sewing machine market?
