Abstracts

The global surgical scissors market size reached US\$ 339.5 Million in 2023. Looking forward, IMARC Group expects the market to reach US\$ 474.1 Million by 2032, exhibiting a growth rate (CAGR) of 3.7% during 2024-2032.

Surgical scissors are handheld medical instruments used by healthcare professionals to cut tissues on the surface or inside the body while performing operative procedures. They are made using stainless steel, zirconia ceramic, nitinol, and titanium. They are currently available in different varieties, depending on the type of surgery and special requirements of healthcare personnel. For instance, mayo scissors are primarily used to cut sutures or other heavy tissues, while small surgical scissors assist in cutting delicate parts.

Surgical Scissors Market Trends:

The rising number of individuals who are undergoing surgical procedures represents one of the primary factors driving the market. In addition, the growing geriatric population, along with the increasing prevalence of chronic ailments like cardiovascular diseases (CVDs), arthritis, cancer, and obesity, is bolstering the market growth. Apart from this, a significant rise in the rate of fatal road accidents and hospital admission cases is catalyzing the demand for surgical scissors around the world. Moreover, the growing popularity of minimally invasive surgical (MIS) procedures, in confluence with

the escalating adoption of advanced surgical techniques, is augmenting the use of cost-effective and robust surgical scissors across the globe. Furthermore, market players are developing surgical scissors using durable and versatile materials to enhance their strength, durability, and functionality. As these scissors facilitate sterilization and can withstand high radiation and heat, their application is expanding worldwide. Besides this, these players are focusing on designing new scissors with eye rings using computer-aided models. These eye rings can fit the thumb and ring finger of surgeons, which aid in decreasing muscle load and improving task performance. Such product developments are anticipated to stimulate the growth of the market.

Key Market Segmentation:

IMARC Group provides an analysis of the key trends in each sub-segment of the global surgical scissors market report, along with forecasts at the global, regional and country level from 2024-2032. Our report has categorized the market based on type, application and end user.

Breakup by Type:

- Reusable Surgical Scissors
- Disposable Surgical Scissors

Breakup by Application:

- Orthopedics
- Cardiology
- Neurology
- Oral and Throat
- Gastroenterology
- Dermatology
- Others

Breakup by End User:

- Hospitals
- Ambulatory Surgical Centers
- Others

Breakup by Region:

North America
United States
Canada
Asia-Pacific
China
Japan
India
South Korea
Australia
Indonesia
Others
Europe
Germany
France
United Kingdom
Italy
Spain
Russia
Others
Latin America
Brazil
Mexico
Others
Middle East and Africa

Competitive Landscape:

The competitive landscape of the industry has also been examined along with the profiles of the key players being Accurate Surgical & Scientific Instruments Corporation, Arthrex Inc., B. Braun Melsungen AG, Becton Dickinson and Company, Gebrüder Martin GmbH & Co KG (Karl Leibinger Medizintechnik GmbH & Co. KG), Integra LifeSciences, Medline Industries LP, Nopa Instruments Medizintechnik GmbH, Scanlan International Inc., Sklar Surgical Instruments, Teleflex Incorporated and World Precision Instruments.

Key Questions Answered in This Report

1. What was the size of the global surgical scissors market in 2023?
2. What is the expected growth rate of the global surgical scissors market during 2024-2032?

3. What are the key factors driving the global surgical scissors market?
4. What has been the impact of COVID-19 on the global surgical scissors market?
5. What is the breakup of the global surgical scissors market based on the type?
6. What is the breakup of the global surgical scissors market based on the end user?
7. What are the key regions in the global surgical scissors market?
8. Who are the key players/companies in the global surgical scissors market?
