Abstracts

Market Overview:

The global testing and commissioning market size reached US\$ 231.5 Billion in 2022. Looking forward, IMARC Group expects the market to reach US\$ 310.1 Billion by 2028, exhibiting a growth rate (CAGR) of 4.87% during 2023-2028. The rising need for regulatory compliance, rapid technological advancements, and the development of new testing and commissioning technologies by key players represent some of the key factors driving the market.

The Increasing Outsourcing of Testing and Commissioning Services and Strict Regulatory Standards Imposed by Governments Augmenting the Market Growth

The testing and commissioning market has been experiencing continuous growth. Increasing outsourcing of testing and commissioning services and strict regulatory standards by governments are some of the primary drivers of the market growth. Countries around the world have implemented mandatory testing regulations to ensure the safety and quality of products. As a result, organizations are increasingly turning to independent laboratories to provide safety testing services to meet these regulatory standards and minimize environmental impacts. In industries, such as automotive, strict emissions regulations have been imposed on Original Equipment Manufacturers (OEMs) to control carbon emissions.

To comply with quality and safety standards, reduce environmental impacts, and minimize costs associated with recovery and restoration, leading manufacturers are outsourcing testing and commissioning services. By outsourcing these services,

organizations are able to allocate more resources to their core business processes, reduce operational costs, and provide faster and better services to their customers. This approach allows for greater production efficiency, leading to improved net profit for the company. These factors are driving the growth of the testing and commissioning market, as organizations recognize the benefits of outsourcing testing services to ensure product quality, compliance with regulations, and environmental sustainability.

Competitive analysis such as market structure, market growth, new entrants, and product differentiation has been covered in the report. Also, detailed profiles of all major companies have been provided. The market structure is fragmented due to the presence of umpteen global players and emergence of small regional players. The volume of new entrants is moderate in the testing and commissioning industry due to high legal barriers.

What Is Testing and Commissioning?

Testing and commissioning are activities that ensure the proper functioning, performance, and safety of systems, equipment, and facilities. They are widely used in industries, such as construction, manufacturing, energy, and transportation, to ensure that systems are operating as intended and meet the required standards and specifications. They help identify defects, errors, or deficiencies in systems and equipment before they are put into operation, preventing potential failures or accidents in the future. This, in turn, reduces downtime, minimizes costly repairs, and avoids safety hazards. Testing and commissioning also ensure that systems and equipment are operating efficiently and effectively, maximizing their performance and lifespan. This leads to improved productivity, reduced energy consumption, and optimized operational costs. Additionally, it provides evidence of compliance with regulations, standards, and industry best practices, which is crucial for obtaining certifications, permits, or approvals from regulatory authorities or clients.

COVID-19 Impact:

The COVID-19 pandemic has had a significant adverse impact on the demand for testing and commissioning services. As various industries, including construction, oil and gas, and aerospace, experienced a slowdown in operations due to lockdowns imposed in many countries, the demand for testing and commissioning services also declined. The severity of the impact varied across different industry sectors, with some being more resilient than others.

Industries, such as oil and gas, and aerospace, were heavily impacted by the pandemic as their global supply chains and specialized workforces were disrupted. As a result, the adoption of testing and commissioning services in these sectors were reduced. However, the food, agriculture, and pharmaceutical sectors, which were deemed essential during the pandemic, were relatively less affected and continued to require testing services to ensure product quality and compliance with regulations.

The lifting of lockdowns in several countries and the resumption of operations in various industries have positively influenced the demand for testing and commissioning services. As industries recover and adapt to the new normal, the need for testing and commissioning to ensure product safety, compliance, and sustainability is expected to rebound, further driving the growth of the market in the coming years.

Global Testing and Commissioning Market Trends:

The global testing and commissioning market is bolstered by several factors, including the growing need to ensure that the systems and equipment being installed are operating efficiently and meeting performance requirements. This is particularly important in industries such as energy, oil and gas, and transportation, where downtime or system failures can have significant financial and safety implications. Additionally, the rising need for regulatory compliance and the shifting focus on reducing costs, improving productivity, and enhancing the overall performance of existing systems are creating a positive outlook for the market. In line with this, key players are developing new testing and commissioning technologies to improve accuracy and efficiency, which is accelerating the market growth. Besides this, the increasing adoption of renewable energy sources, such as solar and wind power, and rapid technological advancements are fueling the market growth.

Key Market Segmentation:

IMARC Group provides an analysis of the key trends in each sub-segment of the global testing and commissioning market report, along with forecasts at the global and regional level from 2023-2028. Our report has categorized the market based on service type, commissioning type, sourcing type and end use sector.

Service Type Insights:

Testing

Certification Commissioning

The report has provided a detailed breakup and analysis of the global testing and commissioning market based on the service type. This includes testing, certification, and commissioning. According to the report, testing represented the largest segment due to the rising product application in automotive, oil & gas and petroleum, energy & utilities, and the manufacturing industries. In addition to this, the surging need to maintain high-quality parameters that meet customer demands and burgeoning investments in testing equipment by key players are boosting the segment growth.

Commissioning Type Insights:

- Initial Commissioning
- Retro Commissioning
- Monitor-Based Commissioning

A detailed breakup and analysis of the global testing and commissioning market based on the commissioning type has also been provided in the report. This includes initial, retro, and monitor-based commissioning. According to the report, initial commissioning represented the largest segment due to the increasing need to test and verify the functionality of new or recently modified systems or equipment. This is further supported by the growing industrial requirements that systems meet performance standards and quality requirements.

Sourcing Type Insights:

- Inhouse
- Outsourced

A detailed breakup and analysis of the global testing and commissioning market based on the sourcing type has also been provided in the report. This includes inhouse and outsourced. According to the report, inhouse represented the largest segment due to the surging need for high level of confidentiality and quality. In addition, leading companies are investing heavily in testing in-house and forming regional commercial labs, which is accelerating the segment growth.

End Use Sector Insights:

Construction
Industrial
Consumer Products
Life Sciences
Oil and Gas
Food and Agriculture
Marine and Offshore
Transport and Aerospace
Energy and Power
Chemicals
Others

A detailed breakup and analysis of the global testing and commissioning market based on the end use has also been provided in the report. This includes construction, industrial, consumer products, life sciences, oil and gas, food and agriculture, marine and offshore, transport and aerospace, energy and power, chemicals, data centers, and others. According to the report, construction represented the largest segment due to the rising infrastructural activity in emerging economies. Furthermore, rapid globalization, the penetration of developed technologies in the sector, and the implementation of product standardization norms are accelerating the segment growth.

Regional Insights:

Europe
Asia Pacific
North America
Middle East and Africa
Latin America

The report has also provided a comprehensive analysis of all the major regional markets, which include North America, Europe, Asia Pacific, Latin America, and Middle East and Africa. According to the report, Europe was the largest market for testing and commissioning. Some of the factors driving the Europe testing and commissioning market included the enhancing focus on the monitoring and maintenance of the supply chain and conducive production environment to safeguard product quality. In addition to this, the surging demand for connected consumer electronics and IoT-enabled devices in the region have facilitated the need for testing and commissioning, thus favoring the market growth.

Competitive Landscape:

The report has also provided a comprehensive analysis of the competitive landscape in the global testing and commissioning market. Some of the companies covered include:

SGS SA
Bureau Veritas SA
Intertek Group plc
DEKRA SE
TUV SUD AG

Kindly note that this only represents a partial list of companies, and the complete list has been provided in the report.

Key Questions Answered in This Report:

What was the size of the global testing and commissioning market in 2022?
What are the key factors driving the global testing and commissioning market?
What has been the impact of COVID-19 on the global testing and commissioning market?
What is the breakup of the global testing and commissioning market based on the service type?
What is the breakup of the global testing and commissioning market based on the commissioning type?
What is the breakup of the global testing and commissioning market based on the sourcing type?
What is the breakup of the global testing and commissioning market based on the end use sector?
What are the key regions in the global testing and commissioning market?
Who are the key players/companies in the global testing and commissioning market?

Contents

1 PREFACE

2 SCOPE AND METHODOLOGY

- 2.1 Objectives of the Study
- 2.2 Stakeholders
- 2.3 Data Sources
 - 2.3.1 Primary Sources
 - 2.3.2 Secondary Sources
- 2.4 Market Estimation
 - 2.4.1 Bottom-Up Approach
 - 2.4.2 Top-Down Approach
- 2.5 Forecasting Methodology

3 EXECUTIVE SUMMARY

4 INTRODUCTION

- 4.1 Overview
- 4.2 Key Industry Trends

5 GLOBAL TESTING AND COMMISSIONING MARKET

- 5.1 Market Overview
- 5.2 Market Performance
- 5.3 Impact of COVID-19
- 5.4 Market Breakup by Service Type
- 5.5 Market Breakup by Commissioning Type
- 5.6 Market Breakup by Sourcing Type
- 5.7 Market Breakup by End Use Sector
- 5.8 Market Breakup by Region
- 5.9 Market Forecast
- 5.10 SWOT Analysis
 - 5.10.1 Overview
 - 5.10.2 Strengths
 - 5.10.3 Weaknesses
 - 5.10.4 Opportunities

- 5.10.5 Threats
- 5.11 Value Chain Analysis
- 5.12 Porters Five Forces Analysis
 - 5.12.1 Overview
 - 5.12.2 Bargaining Power of Buyers
 - 5.12.3 Bargaining Power of Suppliers
 - 5.12.4 Degree of Competition
 - 5.12.5 Threat of New Entrants
 - 5.12.6 Threat of Substitutes
- 5.13 Price Analysis

6 MARKET BREAKUP BY SERVICE TYPE

- 6.1 Testing
 - 6.1.1 Market Trends
 - 6.1.2 Market Forecast
- 6.2 Certification
 - 6.2.1 Market Trends
 - 6.2.2 Market Forecast
- 6.3 Commissioning
 - 6.3.1 Market Trends
 - 6.3.2 Market Forecast

7 MARKET BREAKUP BY COMMISSIONING TYPE

- 7.1 Initial Commissioning
 - 7.1.1 Market Trends
 - 7.1.2 Market Forecast
- 7.2 Retro Commissioning
 - 7.2.1 Market Trends
 - 7.2.2 Market Forecast
- 7.3 Monitor-Based Commissioning
 - 7.3.1 Market Trends
 - 7.3.2 Market Forecast

8 MARKET BREAKUP BY SOURCING TYPE

- 8.1 Inhouse
 - 8.1.1 Market Trends

- 8.1.2 Market Forecast
- 8.2 Outsourced
 - 8.2.1 Market Trends
 - 8.2.2 Market Forecast

9 MARKET BREAKUP BY END USE SECTOR

- 9.1 Construction
 - 9.1.1 Market Trends
 - 9.1.2 Market Forecast
- 9.2 Industrial
 - 9.2.1 Market Trends
 - 9.2.2 Market Forecast
- 9.3 Consumer Products
 - 9.3.1 Market Trends
 - 9.3.2 Market Forecast
- 9.4 Life Sciences
 - 9.4.1 Market Trends
 - 9.4.2 Market Forecast
- 9.5 Oil and Gas
 - 9.5.1 Market Trends
 - 9.5.2 Market Forecast
- 9.6 Food and Agriculture
 - 9.6.1 Market Trends
 - 9.6.2 Market Forecast
- 9.7 Marine and Offshore
 - 9.7.1 Market Trends
 - 9.7.2 Market Forecast
- 9.8 Transport and Aerospace
 - 9.8.1 Market Trends
 - 9.8.2 Market Forecast
- 9.9 Energy and Power
 - 9.9.1 Market Trends
 - 9.9.2 Market Forecast
- 9.10 Chemicals
 - 9.10.1 Market Trends
 - 9.10.2 Market Forecast
- 9.11 Others
 - 9.11.1 Market Trends

9.11.2 Market Forecast

10 MARKET BREAKUP BY REGION

10.1 Europe

10.1.1 Market Trends

10.1.2 Market Forecast

10.2 Asia Pacific

10.2.1 Market Trends

10.2.2 Market Forecast

10.3 North America

10.3.1 Market Trends

10.3.2 Market Forecast

10.4 Middle East and Africa

10.4.1 Market Trends

10.4.2 Market Forecast

10.5 Latin America

10.5.1 Market Trends

10.5.2 Market Forecast

11 COMPETITIVE LANDSCAPE

11.1 Market Structure

11.2 Key Players

11.3 Profiles of Key Players

11.3.1 SGS SA

11.3.1.1 Company Overview

11.3.1.2 Description

11.3.1.3 Product Portfolio

11.3.1.4 Financials

11.3.1.5 SWOT Analysis

11.3.2 Bureau Veritas SA

11.3.2.1 Company Overview

11.3.2.2 Description

11.3.2.3 Product Portfolio

11.3.2.4 Financials

11.3.2.5 SWOT Analysis

11.3.3 Intertek Group plc

11.3.3.1 Company Overview

- 11.3.3.2 Description
- 11.3.3.3 Product Portfolio
- 11.3.3.4 Financials
- 11.3.3.5 SWOT Analysis
- 11.3.4 DEKRA SE
 - 11.3.4.1 Company Overview
 - 11.3.4.2 Description
 - 11.3.4.3 Product Portfolio
 - 11.3.4.4 Financials
- 11.3.5 TUV SUD AG
 - 11.3.5.1 Company Overview
 - 11.3.5.2 Description
 - 11.3.5.3 Product Portfolio
 - 11.3.5.4 Financials
