Abstracts

The 7 major trauma markets are expected to exhibit a CAGR of 5.78% during 2024-2034.

The trauma market has been comprehensively analyzed in IMARC's new report titled "Trauma Market: Epidemiology, Industry Trends, Share, Size, Growth, Opportunity, and Forecast 2024-2034". Trauma refers to a psychological or emotional reaction to an overwhelmingly distressing or disturbing event or series of events. These reactions can vary from person to person but often include feelings of intense fear, helplessness, or horror. The condition can cause a range of indications in patients, such as anxiety, depression, nightmares, sensations of detachment, irritability, hypervigilance, intrusive memories or flashbacks of the event, physical pain or discomfort, difficulty sleeping and concentrating, etc. Trauma can also have a profound impact on the patient's thoughts, emotions, behaviors, and overall functioning. Diagnosing this disease typically involves a comprehensive assessment conducted by a qualified mental healthcare professional, such as a psychiatrist or psychologist. Initially, a doctor will evaluate the patient's symptoms and compare them to the criteria outlined in the Diagnostic and Statistical Manual of Mental Disorders (DSM-5) and the International Classification of Diseases (ICD-10), which help to rule out alternative explanations and confirm the diagnosis. In severe cases, numerous neurological assessments, like cognitive workups, reflex tests, imaging studies, etc., may be conducted to determine any abnormality or dysfunction within the brain.

The increasing incidences of physical violence, sexual assault, or emotional abuse that can shatter a person's sense of safety, security, and trust in others are primarily driving the trauma market. In addition to this, the inflating utilization of cognitive behavioral

therapy, which focuses on detecting and changing negative thoughts and behaviors to alleviate distress as well as promote healing, is creating a positive outlook for the market. Moreover, the widespread adoption of mindfulness-based stress reduction programs that combine meditation, body awareness, and yoga to help in managing anxiety and enhancing overall well-being is further bolstering the market growth. Apart from this, the rising usage of effective drugs, such as benzodiazepines, antipsychotics, anesthetics, etc., since they work by increasing the levels of both serotonin and norepinephrine to promote calmness, is acting as another significant growth-inducing factor. Additionally, the emerging popularity of eye movement desensitization and reprocessing techniques, which aid patients in dealing with distressing memories to reduce their emotional impact and enable adaptive resolution, is expected to drive the trauma market during the forecast period.

IMARC Group's new report provides an exhaustive analysis of the trauma market in the United States, EU5 (Germany, Spain, Italy, France, and United Kingdom) and Japan. This includes treatment practices, in-market, and pipeline drugs, share of individual therapies, market performance across the seven major markets, market performance of key companies and their drugs, etc. The report also provides the current and future patient pool across the seven major markets. According to the report the United States has the largest patient pool for trauma and also represents the largest market for its treatment. Furthermore, the current treatment practice/algorithm, market drivers, challenges, opportunities, reimbursement scenario and unmet medical needs, etc. have also been provided in the report. This report is a must-read for manufacturers, investors, business strategists, researchers, consultants, and all those who have any kind of stake or are planning to foray into the trauma market in any manner.

Time Period of the Study

Base Year: 2023

Historical Period: 2018-2023

Market Forecast: 2024-2034

Countries Covered

United States

Germany

France

United Kingdom

Italy

Spain
Japan

Analysis Covered Across Each Country

Historical, current, and future epidemiology scenario

Historical, current, and future performance of the trauma market

Historical, current, and future performance of various therapeutic categories in the market

Sales of various drugs across the trauma market

Reimbursement scenario in the market

In-market and pipeline drugs

Competitive Landscape:

This report also provides a detailed analysis of the current trauma marketed drugs and late-stage pipeline drugs.

In-Market Drugs

Drug Overview

Mechanism of Action

Regulatory Status

Clinical Trial Results

Drug Uptake and Market Performance

Late-Stage Pipeline Drugs

Drug Overview

Mechanism of Action

Regulatory Status

Clinical Trial Results

Drug Uptake and Market Performance

*Kindly note that the drugs in the above table only represent a partial list of marketed/pipeline drugs, and the complete list has been provided in the report.

Key Questions Answered in this Report:

Market Insights

How has the trauma market performed so far and how will it perform in the coming

years?

What are the markets shares of various therapeutic segments in 2023 and how are they expected to perform till 2034?

What was the country-wise size of the trauma market across the seven major markets in 2023 and what will it look like in 2034?

What is the growth rate of the trauma market across the seven major markets and what will be the expected growth over the next ten years?

What are the key unmet needs in the market?

Epidemiology Insights

What is the number of prevalent cases (2018-2034) of trauma across the seven major markets?

What is the number of prevalent cases (2018-2034) of trauma by age across the seven major markets?

What is the number of prevalent cases (2018-2034) of trauma by gender across the seven major markets?

How many patients are diagnosed (2018-2034) with trauma across the seven major markets?

What is the size of the trauma patient pool (2018-2023) across the seven major markets?

What would be the forecasted patient pool (2024-2034) across the seven major markets?

What are the key factors driving the epidemiological trend of trauma?

What will be the growth rate of patients across the seven major markets?

Trauma: Current Treatment Scenario, Marketed Drugs and Emerging Therapies

What are the current marketed drugs and what are their market performance?

What are the key pipeline drugs and how are they expected to perform in the coming years?

How safe are the current marketed drugs and what are their efficacies?

How safe are the late-stage pipeline drugs and what are their efficacies?

What are the current treatment guidelines for trauma drugs across the seven major markets?

Who are the key companies in the market and what are their market shares?

What are the key mergers and acquisitions, licensing activities, collaborations, etc. related to the trauma market?

What are the key regulatory events related to the trauma market?

What is the structure of clinical trial landscape by status related to the trauma market?
What is the structure of clinical trial landscape by phase related to the trauma market?
What is the structure of clinical trial landscape by route of administration related to the trauma market?

12 TRAUMA - PIPELINE DRUGS

12.1 List of Trauma Pipeline Drugs Across the Top 7 Markets

12.1.1 Human acellular vessel - Humacyte

12.1.1.1 Drug Overview

12.1.1.2 Mechanism of Action

12.1.1.3 Clinical Trial Results

12.1.1.4 Safety and Efficacy

12.1.1.5 Regulatory Status

12.1.2 MultiStem - Athersys

12.1.2.1 Drug Overview

12.1.2.2 Mechanism of Action

12.1.2.3 Clinical Trial Results

12.1.2.4 Safety and Efficacy

12.1.2.5 Regulatory Status

12.1.3 ASTOPC1 - Lineage Cell Therapeutics

12.1.3.1 Drug Overview

12.1.3.2 Mechanism of Action

12.1.3.3 Clinical Trial Results

12.1.3.4 Safety and Efficacy

12.1.3.5 Regulatory Status

Kindly note that the above only represents a partial list of pipeline drugs, and the complete list has been provided in the report.

13. TRAUMA - ATTRIBUTE ANALYSIS OF KEY MARKETED AND PIPELINE DRUGS

14. TRAUMA – CLINICAL TRIAL LANDSCAPE

14.1 Drugs by Status

14.2 Drugs by Phase

14.3 Drugs by Route of Administration

14.4 Key Regulatory Events

15 TRAUMA - MARKET SCENARIO

15.1 Market Scenario - Key Insights

15.2 Market Scenario - Top 7 Markets

15.2.1 Trauma - Market Size

15.2.1.1 Market Size (2018-2023)

- 15.2.1.2 Market Forecast (2024-2034)
