Global Contrast Agents Market – Drivers, Restraints, Opportunities, Trends, and Forecast up to 2025

[70 pages report] This market research report includes a detailed segmentation of the global contrast agents market by product type (Iodinated, Barium-based, Gadolinium-based, Microbubble-based, and Others), by modality type (X-Ray/Computed Tomography, Magnetic Resonance Imaging, and Ultrasound), by region (North America, Europe, Asia Pacific, and Rest of the World).

Overview of the Global Contrast Agents Market

Infoholic's market research report predicts that the "Global Contrast Agents Market" will grow at a CAGR of ~4.0% during the forecast period 2019–2025. The market has witnessed steady growth in the past few years and is sustaining due to rising demand for diagnostic and interventional radiology procedures and increase in incidence and prevalence of disease conditions are drivers of the market.

Expansion in indications of contrast media market and the growth of medical imaging technologies in emerging markets are providing opportunities for the growth of the

contrast agents market. However, side effects associated with contrast agents and stringent regulations for contrast agents are factors hampering the market growth.

The majority of the revenue is generated from the leading players in the market with dominating sales from Taejoon Pharm Co., Ltd., GE Healthcare, Bayer, Fujifilm Holdings Corporation, Bracco Group, and Beijing Beilu Pharmaceutical Co., Ltd.

According to the analysis, North America accounted for the largest share of the global contrast agents market in 2018. The Asia Pacific region is expected to witness the fastest growth rate due to large patient pool and rising healthcare expenditure.

By Product Type:

Iodine-based

Barium-based

Gadolinium-based

Microbubble-based

Others

Iodinated contrast agent is the major shareholder in the contrast agents market in 2018.

By Modality:

X-ray/CT

MRI

Ultrasound

X-ray holds major share in the contrast agents market in 2018. Due to the growing investment and developments in the ultrasound contrast agent industry, the demand for ultrasound contrast agents is expected to grow at a rapid rate during the forecast period.

By Regions:

North America

Europe

APAC

RoW

North America was dominant in the global contrast agents market in 2018. The significant share of the North American region comes from the US, owing to the accessibility to good quality healthcare and good reimbursement facilities.

Key Competitive Facts

Strict government regulations and high cost of products hinders the entry of new players and many players have commandable share in the market.

Adverse reimbursement scenario and high cost of imaging modalities in emerging countries may hamper the market growth.

Benefits – The report provides complete details about the sub-segments of the contrast agents market. Through this report, the key stakeholders can know about the major trends, drivers, investments, vertical player's initiatives, and government initiatives toward the disease management in the upcoming years along with details of the existing pure-play companies and new players entering the market. Moreover, the report provides details about the major challenges that are going to impact the market growth. Additionally, the report gives complete details about the key business opportunities to key stakeholders in order to expand their business and capture the revenue in specific verticals and to analyze before investing or expanding the business in this market.

Key Takeaways:

Understanding the potential market opportunity with precise market size and forecast data.

A detailed market analysis focusing on the growth of the contrast agents industry.

Factors influencing the growth of the contrast agents market.

In-depth competitive analysis of dominant and pure-play vendors.

Prediction analysis of the contrast agents market in both developed and developing regions.

Key insights related to major segments of the contrast agents market.

Latest market trend analysis impacting the buying behavior of the consumers.
