Abstracts

Every organization’s key business policies and regulatory compliance data is safely locked inside multiple software systems, expressed in high technicality and usually not accessible to the key leaders/managers responsible for executing business policies and respective protocols. Business Rules Management System (BRMS) provides customised solutions to react quickly for all kinds of business rules & policies far efficient than traditional methods. Enterprises increased organizational agility and receptiveness are driving the BRMS market with benefits such as consistent business planners, reducing time to market, reducing total operational & maintenance cost, and providing highly available & robust platforms for all businesses. Also, enabling IT and business teams to easily communicate changes and rule maintenance work to be more consistently distributed across the enterprises. The key players include Bosch Software Innovations, Progress Software Corporation, Oracle Corporation, Red Hat, SAP, IBM, FICO, CA Technologies, and others. The report provides unique insights into and in-depth analysis of global BRMS market, drivers and restraints as well as growth opportunities. It also contains analysis and forecasted revenues, competitive landscape, company profiles and industry trends.
