## **Abstracts**

The Indian Telecom services market is one of the fastest growing markets in the world. Telecommunications is one of the prime support services needed for rapid growth and modernisation of various sectors of the economy. The policies and regulatory framework implemented by TRAI (Telecom Regulatory Authority of India) created a potential environment for service providers. The increasing network coverage and decreasing of tariff rates due to heavy competition were the potential drivers in the past few years. Some of the major players include Bharti airtel, Vodafone, Idea Cellular and etc. The report provides unique insights into and in-depth analysis of Telecom Service Providers in India, drivers and restraints as well as growth opportunities. It also contains analysis and forecasted revenues, competitive landscape, company profiles and industry trends.
