Abstracts

Pharmaceutical drug delivery is referred to a device that is commonly used for the control or target drug delivery of a variety of therapeutic agents to treat several numbers of diseases or for better improvement in the health of the patients. Drug delivery systems are medical equipment utilized to infuse drugs or chemicals into the body and also used to stimulate drug absorption, efficiency, and experience of the patient. Rapidly increasing infectious and chronic diseases worldwide and growing research & developments in drug delivery are the major reasons responsible for the growth in the pharmaceutical drug delivery market. But somehow, the growth in incidences of drug recall and drug failures are limiting the market growth. The Pharmaceutical Drug Delivery Market is anticipated to grow at a CAGR of 4.6% during the forecast period of 2020-2026.

Research Methodology:

The pharmaceutical drug delivery market has been analyzed by utilizing the optimum combination of secondary sources and in-house methodology, along with an irreplaceable blend of primary insights. The real-time assessment of the market is an integral part of our market sizing and forecasting methodology. Our industry experts and panel of primary participants have helped in compiling relevant aspects with realistic parametric estimations for a comprehensive study. The participation share of different categories of primary participants is given below:

Pharmaceutical Drug Delivery Market, by Route of Administration

Oral Drug Delivery

Pulmonary Drug Delivery

Injectable Drug Delivery

Ocular Drug Delivery

Nasal Drug Delivery

Topical Drug Delivery

Implantable Drug Delivery

Transmucosal Drug Delivery

Pharmaceutical Drug Delivery Market, by Application

Infectious Diseases

Cancer

Cardiovascular Diseases

Diabetes

Respiratory Diseases

Central Nervous System Disorders

Autoimmune Diseases

Pharmaceutical Drug Delivery Market, by End User

Hospitals

Home Care Settings

Ambulatory Survey Centers

Diagnostic Centers

Pharmaceutical Drug Delivery Market, by Geography

North America

Europe

Asia Pacific

Rest of the World

If analyzed by the route of administration, the pharmaceutical drug delivery market is mainly dominated by the topical drug delivery segment. This segment has a major role in the market due to its benefits, such as satisfaction and ease of use, accurate dosage to a particular place, maximum absorption, no pain and non-intrusive delivery, and avoid fluctuation in drug delivery and majorly, best suitable for self-medication.

In the application market, pharmaceutical drug delivery is majorly applied in cancer diseases. The key reason is the increasing incidence of cancer all over the world and the increasing need for the latest and advanced therapeutics for cancer treatment, which is giving the majority for this segment in the application.

As per the end-user, the pharmaceutical drug delivery market is majorly divided into

Pharmaceutical Drug Delivery Market by Route of Administration (Oral Drug Delivery, Pulmonary Drug Delivery, I...

hospitals, home care settings, ambulatory survey centers, and diagnostic centers. The huge number of inpatient and outpatient visits to hospitals and the necessity of a huge amount of drugs and the respective delivery devices to render service to a large number of patients in the hospital are the reasons responsible for the largest share of hospitals in this market.

Geographically, the pharmaceutical drug delivery market is majorly segregated into North America, Europe, Asia Pacific, and the Rest of the World. North America is happening to hold a significant share in the market due to the encouraging government initiatives for the development of drug delivery technologies, increasing pharmaceutical investment with the rising cases of cancer, and emerging advanced technology in oral drug delivery in this region.

Some other aspects which are enhancing the pharmaceutical drug delivery market growth globally are rapidly increasing numbers of infectious and chronic diseases. This may result in growth in the biologics market, which is significantly stimulating global market growth. However, the risk involved in injectable drug delivery, such as needle stick injury, is hampering the market growth.

Some of the companies' profiles are provided in the Pharmaceutical Drug Delivery Market-F. Hoffman-La Roche, Bayer AG, Pfizer, GlaxoSmithKline plc, Inc., Novartis AG, 3M Company, Becton, Dickinson and Company, Sanofi, Merck & Co., Inc., Antares Pharma, Inc., AbbVie, Amgen, Johnson & Johnson, Inc, AstraZeneca, Eli Lilly and Company, Gilead Sciences, Inc., Teva Pharmaceuticals, Boehringer Ingelheim, Bristol-Myers Squibb, and Genmab A/S.

Thus, advanced developments in pharmaceutical drug delivery, such as utilization to serve through diagnostic tools, are supporting the market growth further. This report provides the emerging developments in the drug delivery industry.

This report of the pharmaceutical drug delivery market discusses the present state, innovations, and future needs of the market end-users.

This study examines the various categories of drug delivery, divided by market shares of the key manufacturers and acquisitions, mergers, and alliances by vendors and global organizations.

This research further analyses the stringent environment and the involved technology, including the new trends and developments.

The pharmaceutical drug delivery market also presents the major vendors of the industry.
