Abstracts

The Rehab Equipment Market is predicted to grow at the rate of 6.36% CAGR by 2026. Rehabilitation is a therapy meant to provide recovery procedure from illness, injury, or disease to a normal state with therapy and counseling. Rehabilitation is the procedure of restoring something to its original state. In this procedure, a wide range of equipment is used, which are re-usable; the usage of this equipment is increasing among customers. The market growth is due to advantageous improvements in healthcare, increase in the population of handicapped worldwide, and the rising old population. Moreover, the increasing number of incurable diseases and disorders among the world population will also raise rehabilitation equipment deployment. Additionally, with the escalating demand for physiotherapy, owing to the old and disabled people's unmet requirements, there is an upsurge in demand for rehabilitation equipment. On the other hand, the inadequate awareness regarding the benefits of rehabilitation services in emerging countries is a factor to limit the rehab equipment market growth.

Rehab Equipment Market based on Product Type

Daily Living Aids

Medical Beds

Bathroom & Toilet Assist Devices

Reading Writing & Computer Aids

Mobility Equipment

Wheelchairs & Scooters

Walking Assist Devices

Exercise Equipment

Lower Body Exercise Equipment

Upper Body Exercise Equipment

Body Support Devices

Patient Lifts

Medical Lifting Slings

Rehab Equipment Market based on Application

Physiotherapy

Occupational Therapy

Rehab Equipment Market based on End-User

Hospitals & Clinics

Rehab Centers

Home Care Settings

Physiotherapy Centers

Rehab Equipment Market based on Geography

North America

Europe

Asia Pacific

Rest of the World

In the market for products type, the mobile equipment segment leads the overall market of rehab equipment. The mobile equipment segment is further divided into wheelchairs & scooters, and walking assist devices. This is due to the increasing elderly population, increasing accidents which result in severe body parts injuries. Moreover, walking assist devices are most widely used among the target population owing to the low cost and ease of use.

As per the market by application, the rehab equipment is majorly applicable in physiotherapy. Physiotherapy involves exercise equipment in the rehabilitation of patients after trauma. Increasing geriatric population, shift in the people lifestyle, growing numerous physiotherapy centers, advantageous healthcare reforms, and increasing demand in emerging economies are anticipated to boost the segment growth.

According to the end-user market, the hospitals and clinics segment is expected to have the largest share in the rehab equipment market. The largest share of this segment is ascribed to the favorable reimbursement scenario. Many patients in the hospitals are undergoing treatment of several health issues, and well-equipped hospitals fuel the demand for rehab equipment in hospitals.

North America has acquired the maximum share in the rehab equipment market in terms of market by geography. North America has a large population of the geriatric and an increasing prevalence of chronic diseases such as diabetes, arthritis, cancer, and cardiovascular diseases.

Worldwide, increasing chronic diseases in elderly patients lead to functional disabilities such as vision, hearing, and physical disability, resulting in increased medical care and physical rehabilitation requirements. As a result, the elderly population is highly

suggested to go through rehabilitation treatment, leading to surging demand for rehabilitation equipment.

Significant competitors of the rehab equipment market are GF Health Products, Inc., Caremax Rehabilitation Equipment Co., Ltd., Drive DeVilbiss Healthcare, Medline Industries, Inc., Hill-Rom Services Inc., Invacare Corporation, Dynatronics Corporation, DJO Global, Inc., Carex Health Brands, Inc., Roma Medical and EZ Way, Inc.

As a result, it is observed that many of the people are benefitted from rehabilitation having health issues. Moreover, rehabilitation has become a crucial part of universal health coverage and fosters good health, treatment, disease prevention, and palliative care.

This study represents the key rehab equipment manufacturers, presenting sales, revenue, market size, and new developments for major players.

This study analyzes the global and key geographical regions' market prospective and advantages, opportunities, challenges, constraints, and risks.

This report further depicts the essential trends, drivers, impacting factors of the rehab equipment market.

This report provides the competitive outlook in terms of expansions, agreements, new product launches, and acquisitions in the market.
