Security Operations Center Market

This market research report identifies many companies which includes Capgemini, Cisco, Symantec, SecureWorks, IBM, etc. in the Security Operations Center market. SOC market is fragmented with several security vendors, services vendors, and telecom providers competing for larger market share. This report also provides a detailed analysis of the market by component (software and services), function (security services, threat and infrastructure management, identity and access management, and data security), service model (in-house, hybrid, and fully outsourcing), and region (North America, Europe, Asia Pacific, Middle East and Africa and Latin America).

Overview of the Security Operations Center market

Infoholic's market research report predicts that the Security Operations Center market revenue is estimated to be \$31,796.9 million in 2019 and is expected to reach \$61,199.7 million by 2025, growing at a CAGR of 11.5% during the forecast period 2019–2025.

According to the SOC market analysis, North America accounted for the largest share of the Security Operations Center market in 2019 owing to strong economic conditions in the region and increased focus to enhance advanced systems protection for the enterprises. The cybersecurity is the focus area for the SOCs detecting threats from external sources. The Asia Pacific region holds a good potential for the vendors and is expected to grow at the highest CAGR during the forecast period 2019–2025. The Asia Pacific region is expected to witness growth in SOCs due to presence of the emerging countries such as India, China, and Philippines and organizations in the region are

experiencing increase in customers and focus on data protection and threat detection.
