Abstracts

Backhoe loader is the numero uno equipment in the basket of construction equipment that is manufactured, imported and exported from India. After witnessing a peak demand of 2400-2500 backhoe loader per month in 2010-11, since last 2-3 years the equipment sales volume is struggling to even reach 2000 levels. The fluctuation in demand for backhoe loader is closely correlated to the construction activity in the economy and any blip in the economy eventually impacts the construction activity and eventually impacting the demand for construction equipment. Given the multi-tasking backhoe loaders are designed for its only fair to say that it's the Swiss Knife in the construction equipment basket. Backhoe loaders are common and can be used for many tasks, which include construction, light transportation of materials, powering building equipment, digging holes and excavating, breaking asphalt, and even paving roads. You can often replace the backhoe bucket with other tools such as a breaker for breaking and smashing concrete and rock. There are some loader buckets that offer a retractable bottom, which enable it to empty the load more quickly and efficiently.

InfraInsights expects the demand for backhoe loader increasing at a healthier pace than that was seen in early 2007 onwards and we anticipate the demand to touch new high of 3400-3500 per month. Our recent conversations with both buyers and suppliers of construction equipment are pointing towards significant recovery from FY17-18 and the industry expects to further build on this momentum when getting into FY18-19.

InfraInsights research report 'Demand Outlook for Backhoe Loader Market in India by 2020' will help companies to get a view on emerging demand in different optimistic to realistic scenario. Report will provide segmentation of these demand by state, region and end use application. It will also provide benchmarking of Backhoe loaders offerings from different OEMs to provide a view on whether product based selling or solution

based selling is the future. Report will be data, analysis and insights oriented and will be handy for companies to plan their capacity utilization in the times to come.

Contents

1. EXECUTIVE SUMMARY

2. RESEARCH METHODOLOGY

3. CONSTRUCTION EQUIPMENT MARKET LANDSCAPE

- a. Growth drivers
- b. Manufacturing Capabilities
- c. Imports scenario
- d. Export scenario
- e. Factors influencing growth
- f. Key constraints

4. FACTORS THAT DRIVE DEMAND FOR C&E EQUIPMENT IN INDIA

5. BACKHOE LOADER MARKET LANDSCAPE IN INDIA

- a. Market overview
- b. Key players
- c. Manufacturing Vs Imports
- d. Growth Trends (2008 till 2016)
- e. Application Matrix
- f. Key growth drivers

6. BACKHOE LOADER MARKET SIZE & SHARE 2015-16

- a. Installed Capacity Vs Capacity Utilization
- b. Market size by OEMs
- c. Market size by capacity rating
- d. Market size by end use application
- e. Market size by end user industry segment
- f. Market size by own vs lease
- g. Market size by region/states
- h. Market size by channel
- i. Market size by domestic vs imports

7. USAGE NORM FOR BACKHOE LOADER ACROSS DIFFERENT INDUSTRIES

8. KEY FUTURE GROWTH DRIVERS

- a. Rurban Infrastructure spend
- b. Brick Manufacturing growth

9. BENCHMARKING/COMPARISON OF BACKHOE LOADERS OF DIFFERENT OEMS

- a. Technical Spec
- b. Pricing
- c. After Sales Support
- d. Market Hold/Brand Recall
- e. Customer Satisfaction

10. COMPETITIVE ANALYSIS OF OEMS IN INDIA MARKET BACKHOE LOADER MARKET SIZE & SHARE PROJECTIONS 2019-20

- a. Project capacity expansion
- b. Market size by OEMs
- c. Market size by capacity rating
- d. Market size by end use application
- e. Market size by end user industry segment
- f. Market size by own vs lease
- g. Market size by region/states
- h. Market size by channel
- i. Market size by domestic vs imports

11. COMPANY PROFILES

- a. JCB
- b. Case NH
- c. CAT
- d. Terex
- e. Tata Hitachi
