Abstracts

The new government at the centre is committed to spur economic growth and the intent is clear in form of different programmes and initiatives announced across the energy & infrastructure sector. Public spending in Infrastructure sector will be the key economic growth driver. As of 12th plan, an estimated \$1 trillion investment is required in Infrastructure sector, Infralnsights is of the view that the requirement is far greater than this and significant private sector participation will be required to fill the gap. Some of the big ticket programmes like 'Housing for All', '100 Smart Cities', '24X7 Power for All', '1 billion tonnes of Coal from CIL by 2019', '30KM of roads per day', different highways projects and dedicated freight corridors etc. all planned to strengthen the overall energy & infrastructure capabilities and capacities in India. While, one may argue that these programmes are yet to be flagged off in a major way but there is no debate on these getting translated into actual on ground. Infralnsights anticipates huge demand for mining, construction and material handling equipment in the process of adding infrastructure capabilities across the country.

Earth Moving Equipment, Material Handling Equipment, Concrete Equipment, Road building equipment manufacturers have operated under depressed demand environment over the last 4-5 years, this scenario is likely to change for soon for good. Companies like BEML, Escorts, L&T, Tata Hitachi, Volvo, Greaves Cotton and other OEMs in construction, mining and material handling equipment segment will be the biggest beneficiary of upswing in capital expenditure in economy. The new investment announcements are indicating positive trends for three consecutive quarters, indicating signs of reviving confidence. Sensing the emergence of improving demand environment, some of the leading companies have started getting their act in place in terms of expanding capacities in India market. Infralnsights in its earlier coverage on Demand Outlook for Coal Mining Equipment in India 2020, concluded significant

demand for HEMM and UGM from CIL, Captive Miners and Contract Miners and the same trend is likely to be seen in Construction, Material Handling segment as well. In order to make the industry equipped with data that helps them draw insights on emerging opportunity, Infralnsights is please to initiate its Multi-Client research coverage with this report 'Demand Outlook on Mining (non-coal), Construction & Material Handling Equipment in India by 2020', the report will provide market size for FY15 and projected demand across different mining (non-coal), construction and material handling equipment by 2020. The report will provide sector specific demand for these equipment and will build different scenarios - pessimistic, business as usual and realistic - to arrive at what is the likely demand outlook for the coal, construction and material handling equipment by 2020. Report will be delivered based on in depth primary research backed by relevant secondary research that will result in insights pointing towards the prospects around emerging demand environment. The key differentiation of the report is its demand side assessment approach instead of just supply side assessment approach, and hence the report will be handy to set targets on market share, take a critical view on product portfolio, price points and commercial strategy.

Contents

I. MODULE 1: DEMAND OUTLOOK FOR CONSTRUCTION EQUIPMENT MARKET IN INDIA BY 2020

1. Executive Summary
2. Construction Equipment Market Landscape
 - Market characteristics
 - Industry Structure
 - Key Market Players
 - Market Drivers
 - Application Matrix
3. Trend in Construction Equipment Market in India
4. Construction Equipment Market Size in India 2014-15(Compactors, Pavers, Asphalt Finishers, Motor Grader, Transit Mixers, Backhoe Loader, Wheel Loader, Skid Steer Loader, Excavators, Mobile Cranes, Dozers, Concrete Pump, Mobile Compressors, Pumps, Toe-Trucks, Rigid Dump Trucks, Articulated Dump Trucks)
 - Overall market by equipment type - value & volume
 - Overall market by domestic vs export
 - Overall market by OEMs - value & volume
 - Overall market by end use industry categories - value & volume
 - Overall market by ownership i.e. Lease Vs Owned
 - Overall market by product vs services & spares sales
 - Equipment wise - OEM market share
 - Equipment wise - end use industry categories market share
 - Equipment wise - region wise market share
 - End use industry market share across equipment categories
5. Typical price range of different construction equipment
6. Usage Norms for Construction Equipment across different industry
 - Realty - building construction
 - Roads & Highways construction
 - Power Sector
 - Ports & Airports
 - Transportation - MRTS
 - Railways
 - Industrial Parks
 - Bridge & Tunnels
 - Dams
 - Oil & Gas Pipeline

7. Typical Purchase Practice & Commercial Terms
8. Parameters considered for buying or hiring equipment
9. Emerging Demand Drivers for Construction Equipment Market
 - Projected Spend in Infrastructure Sector - Central & State
 - Government's Flagship programmes - Smart City, 24X7 Power for All, Swachh Bharat
 - Inland Water Ways Development
10. Projected Demand for Construction Equipment by 2020
11. Market Attractiveness Vs Level of Competition across Construction Equipment Portfolio
12. Current and Projected Market for Construction Equipment on Lease/Hire basis
13. Detailed profile of OEMs in construction equipment sector

II. MODULE 2: DEMAND OUTLOOK FOR MATERIAL HANDLING EQUIPMENT MARKET IN INDIA BY 2020

1. Executive Summary
2. Material Handling Equipment Market Landscape
 - Market characteristics
 - Industry Structure
 - Key Market Players
 - Market Drivers
 - Application Matrix
3. Trends in MHE Market in India
4. MHE Market Size in India 2014-15 (Pick N Carry Cranes, Forklift, Slew Cranes, Crawler Cranes, Tower Cranes, Conveyor Systems, Automatic Guided Vehicle, Industrial Trucks, Stackers, Reclaimers, Bucket Elevators, Hoppers, Silos)
 - Overall market by equipment type - value & volume
 - Overall market by domestic vs export
 - Overall market by OEMs - value & volume
 - Overall market by end use industry categories - value & volume
 - Overall market by ownership i.e. Lease Vs Owned
 - Overall market by product vs services & spares sales
 - Equipment wise - OEM market share
 - Equipment wise - end use industry categories market share
 - Equipment wise - region wise market share
 - End use industry market share across equipment categories
5. Typical price range of different MHEs
6. Usage Norms for MHEs across different industry
 - Ports & Airports

- Railways
- Industrial Parks
- Manufacturing Industries
- 7. Emerging Demand Drivers for MHE
 - Boom in Warehousing Sector
 - Adoption of in-pit crushing and conveying technology in Mining
 - Increase in port capacity
 - Promotion of Inland and Coastal Shipping
- 8. Projected Demand for MHE by 2020
- 9. Market Attractiveness Vs Level of Competition across MHE Portfolio
- 10. Typical Purchase Practice & Commercial Terms related to MHE
- 11. Detailed Profile of leading OEMs in MHE sector

III. MODULE 3: DEMAND OUTLOOK FOR MINING EQUIPMENT (NON-COAL) MARKET IN INDIA BY 2020

- 1. Non Coal Mining Industry in India
 - Background
 - Market composition & key players
 - Mining and India's GDP
- 2. Key Regulations & Policies in Mining Industry
- 3. Mining Equipment market landscape
- 4. Maturity of non-coal mining Industry in India
 - Level of mechanization
 - Underground mining
 - Open cast mining
- 5. Mining Equipment Market (Drilling and Blasting, Hauling, Loading, Transporting & Processing)
 - Market characteristics
 - Companies geographical spread
 - Market size in 2014-15 : By value and volume
 - Production - Exports + Imports = Domestic Market
 - Market size in 2014-15 by companies - by value and volume
 - Market size in 2014-15 by equipment type - by value and volume
 - Market size in 2014-15 by Open Cast (OC) & Underground (UG) Mining - by value and volume
 - Market size in 2014-15 by end users - Government mines vs. Private mines
 - Market size in 2014-15 by regions
 - Product pricing & commercial practices

Marketing & Distribution practice
Market trends
Companies new initiatives & development
Companies future plans
Past & future growth trends

6. Projected demand for non coal mining equipment in India by 2020
7. Procurement Plan of Public & Private Sector Mining Companies
8. Retrofitting/Refurbishment Opportunity

IV. MODULE 4: DEMAND OUTLOOK FOR OTR TYRES IN CONSTRUCTION, MINING (NON-COAL) AND MATERIAL HANDLING EQUIPMENT MARKET IN INDIA BY 2020

1. Executive Summary
2. Tyre Industry in India
 - Industry Overview
 - Trend in type of tyres used - Radial Vs Cross Ply (Bias)
 - Key Players in Indian Tyre Market
3. OTR Tyres Industry in India
 - Industry Overview
 - Industry Landscape
 - Industry Dynamics
 - Competitive Landscape
4. OTR Tyres Usage in Non Coal Mining, Construction & Material Handling Equipment Sector in India
5. Demand for OTR Tyres
6. OTR Tyre Market Size (value & volume) - 2014 to 2020
 - OTR Tyre Market by different OE
 - OTR Tyre Market by different Suppliers
 - OTR Tyre Market by different dimension
 - OTR Tyre Market by Cross Ply Vs Radial
 - OTR Tyre Market by region
 - OTR Tyre Market by different CIL subsidiary
 - Projections of OTR Tyre Market
7. OTR Tyre Replacement Market Size
 - Typical working hours in CIL subsidiary
 - Replacement norms

I would like to order

Product name: Demand Outlook on Mining (Non-Coal), Construction & Material Handling Equipment in India by 2020

Product link: <https://marketpublishers.com/r/D78BDDBB423EN.html>

Price: US\$ 7,980.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

info@marketpublishers.com

Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/D78BDDBB423EN.html>
