KEY FINDINGS

The Asia-Pacific cosmetic surgery and procedures market is projected to expand at a CAGR of 6.05% for the years 2017-2026. This region is witnessing the fastest growth for the forecast period, as compared to other regions of the global market.

MARKET INSIGHTS

Eyelid surgery, liposuction, hair removal, and breast augmentation have been the most popular surgeries in APAC countries like Japan, China, and India. The Chinese cosmetic surgery and procedures market is expected to exhibit the highest growth for this region over the forecast period. Hyaluronic acid injection surgery is extremely popular in the Chinese market. On the other hand, researchers in Japan are increasingly employing augmented reality for planning, performing and evaluating the results of plastic and reconstructive surgery. The Indian market isn't far behind. Due to the availability of various cosmetic surgeries at comparatively less prices, a growing foreign clientele has been observed for this country.

COMPETITIVE INSIGHTS

Companies like Nestle, Johnson & Johnson, Sientra Inc, Syneron Medical, Allergan Plc, Invasix Aesthetic Solutions, Ipsen, Cutera, Merz Pharma, Alma Lasers, Lumenis, Cynosure Inc and Sinclair Pharma are actively involved in this market.
