KEY FINDINGS

Between the forecast years of 2018-2027, the Asia Pacific fetal and neonatal care equipment market is estimated to evolve with a 6.67% CAGR, generating a net total of \$ 3279 million. This is a significant increase from its 2017 revenue of \$1735 million.

MARKET INSIGHTS

The rapidly growing healthcare sector in the APAC, combined with the presence of much better surgical technology in the region is presenting the market with significant growth opportunities. The market is chiefly sub-segmented on the basis of products. The Australian market contributed a significant revenue share in 2017. However, the markets of China and India are expected to show substantial growth over the course of the forecast period. Although the region is expected to showcase the fastest growth as compared to other regional markets, certain factors like the thriving refurbished and secondhand equipment market, considerable entry barriers for new market players and stringent regulatory policies implemented by several governments in the region might dampen the market growth in the future.

COMPETITIVE INSIGHTS

Companies like Natus Medical Incorporated, Criticare Technologies, Masimo Corporation, Mallinckrodt, Atom Medical International, Fisher & Paykel Healthcare Ltd, Roche Diagnostics, Medtronic Inc, Phoenix Medical Systems Pvt Ltd, Nonin Medical Inc, International Biomedical, etc. are involved in this market.
