KEY FINDINGS

The North America cyber weapon market accounted for the highest market share of the global market in 2017. The market is expected to collect \$xx million by the end of the forecast period of 2018-2026, by growing at a CAGR of 3.08%.

MARKET INSIGHTS

The North America cyber weapon market is segmented on the basis of type and applications. The cyber weapon extends its applications in the defence and aerospace sector for confidential data theft, spying, etc. for lawfully preventing any terror activities across the border. Cyber weapon acts as a tool to perform both defensive and offensive actions like defending external cyber-attacks or making a cyber-attack on other rival nations for any nation's security. A large share of the North American market was captured by the U.S in 2017, followed by Canada and Mexico. The rising incidences of cyber crimes like hacking and identity theft are majorly responsible for driving the U.S cyber weapon market.
