KEY FINDINGS

The North American epoxy resins market is expected to prosper with the highest CAGR of 7.23%. While factors like increasing applications in the aerospace and paints and coatings industry are driving the market growth, the rising demand for modified epoxy resins is presenting the North American market with lucrative growth opportunities.

MARKET INSIGHTS

The markets of US and Canada are majorly analyzed for this region. The US market is expected to lead in terms of revenue generation, but it is the Canadian epoxy resins market that is expected to register the highest CAGR. The region's epoxy resins market is chiefly driven by the automotive industry. However, increasing awareness regarding health hazards associated with BPA-based products and growing interest in alternative resins are restraining the market growth.

COMPETITIVE INSIGHTS

Momentive Performance Materials Holdings LLC, Dow Chemical Company, 3M Company, Huntsman Corporation, Jubail Chemical Ind Co, Olin Corporation, Sinopec Corporation, Chang Chun Plastics Co. Ltd, BASF SE, and Hexion Inc are some of the renowned market players in this region.
