Abstracts

FY13 has been a challenging year for the Indian automobile industry as slowdown in economic activity coupled with high interest rates and rising fuel and vehicle prices have dampened consumer sentiments. Volumes over FY09-FY11 grew at ~25% CAGR and slowed down to 13% in FY12. In FY13 volume growth further decelerated with FY13 YTD growth rate at 5%. Amongst segments, passenger cars and the M&HCV segments have been the worst hit. Industry body "SIAM" has already lowered its FY13 growth forecast for the passenger car segment thrice from a high of 10-12% and now expects it to de-grow. Nonetheless, easing of interest rates in CY2013 is expected to revive demand going ahead and provide relief to the automakers.
