Abstracts

EXECUTIVE SUMMARY

This report provides the periodic review of Auto sector index and ranking. In today's dynamic business world, indices play a vital role within the investment process, ranging from benchmarking the performance to comparison with broader indices. The indexing also facilitates in identifying the top players in the sector or a group.

Similarly ranking helps in identifying top and worst performers based on various metrics of evaluation. We use 5-factor model for the ranking purpose.

"Indian Auto Sector – Performance & Ranking Review" is the result of IS Advisors' extensive financial research covering CNX 500 index.

Scope of the Report

The report presents key financial information on all the listed Auto companies which are part of CNX 500. In addition, it indicates top players through indexing and top performers through ranking.

Reasons to buy

The report provides essential financial information on key players in the sector

An index called IS Auto Index is composed for benchmarking Auto sector performance in capital markets

A unique 5-factor model is used to rank the players

An upward move in ranking of a company from one period to other can be considered good for investment purpose and vice-versa

Highlights

Top players in IS Auto Index
