## Abstracts

The Asia Pacific Diabetic Footwear Market is expected to register a CAGR of 9.7% during the forecast period (2017 – 2023). Growing geriatric population has also contributed to the expansion of the diabetic footwear market. Countries such as Japan, India and China have the largest population count and geriatric population as well. Risk of diabetes is high among the aged population. According to the report on World Population Ageing (2015) by the Department of Economic and Social Affairs Population Division “Between 2015 and 2030, the number of people in the world aged 60 years or over is projected to grow by 56 per cent, from 901 million to 1.4 billion, and by 2050, the global population of older persons is expected to be more than double its size in 2015, reaching nearly to 2.1 billion.”

Increase in the disposable income of the consumers has encouraged people to spend more on their health. There has been a rapid increase in disposable income of consumers in the developing countries such as China and India. These countries are growing at a significant pace.
