The Asia Pacific Dry Shampoo Market would witness market growth of 7.3% CAGR during the forecast period (2017 – 2023). Dry shampoo has aroused the interest in the working-class, on a global level. This particular segment is looking for products that are time saving and can complementing their hectic lifestyle, as exposure to pollution is very common in the working class. Dry shampoo is best suited for such a lifestyle, and more so because frequent use of regular shampoo leads to loss of strength and shine of hair.
