This will result in the growth of this market. In countries like India, the demand for electricity has constantly been more than that of the supply and this causes problems for several industries.

To increase the expansion of power supply, the Indian government has created many corporations like NTPC Limited, State Electricity Boards (SEB), and NHPC limited. Even after these developments, the issue of shortage of power supply has not been solved in the country. Hence there is the increased use of power rental equipment. This factor is positively impacting the growth of the market. Though, regulations of emission for diesel engines are another factor that may impede the growth of the market.

Renting is one of the popular phenomena in businesses due to the treatment of
