Abstracts

The Asia Pacific Security Policy Management Market would witness market growth of 12.0% CAGR during the forecast period (2019-2025).

Security policy management solutions and services assist in protecting data within networks. These solutions are being adopted by organizations to ensure on-going compliance. Security policy solutions can secure crucial information against advancing threats such as malware, spam, Trojan, Business Email Compromise (BEC), and phishing. Due to the growing demand among companies to efficiently secure their inner and external infrastructure to preserve critical company data and infrastructure, the solutions are gaining traction.

The BFSI sector is projected to represent the largest market size in the security policy management market. As it deals with big amounts of delicate and personal economic information, BFSI is the most targeted vertical sector. BFSI companies are seeking solutions for security policy management to guarantee irreversible security. In addition, the sector is the most controlled one, as it has to meet several security requirements.

Based on Component, the market is segmented into Solution and Services. Services segment is further categorized into Professional and Managed Services. Based on Product, the market is segmented into Network Policy Management, Compliance & Auditing, Change Management and Others.
